

MINUTES OF THE 437th REGISTRATION COMMITTEE MEETING HELD ON 16.03.2022.

The 437th meeting of the Registration Committee (RC) was held under the Chairmanship of Dr. S. K. Malhotra, Chairman, Registration Committee on 16.03.2022 at 10:00 hrs onwards through NIC video conference. Dr. Ravi Prakash, PPA, DPPQ&S, Faridabad; Dr. S. C. Dubey, ADG (PP&B) ICAR, Krishi Bhawan, New Delhi; Dr. Rajesh Verma, Assistant Drug Controller, (Representative of Drug Controller General of India) New Delhi; Dr. Vishal Chaudhary, Deputy Industrial Advisor, Ministry of Chemical and Petrochemical, New Delhi and Dr. J. P. Singh, APPA & Secretary, CIB&RC attended the meeting.

Experts/Officers from the Secretariat of CIB&RC participated in assisting the RC and during the deliberations Sh. Subhash Chand JD (Chem.); Sh. Hari Om Miglani, Sr. LO; Sh. A. K. Reddy, DD(WS); Dr. K.L. Gurjar DD (PP); Dr. Sneha Potdar, DD (Chem); Dr. Brijesh Tripathi, DD (Chem.); Dr. Sonai. Rajan, AD (E); Sh. Niraj Kulshrestha, LO; Sh. A.D. Bhatt, PPO (Chem); Dr. S. K. Jain, Sr. Consultant (Medical Tox) and Dr. Sameya Anjum, Consultant (Medical Tox) were present.

At the outset, Chairman welcomed the members and asked Secretary, CIB&RC to take up the agenda for deliberations. The decisions taken by the RC are as under:-

<u>Agenda item No.</u>	<u>Particulars of Agenda</u>
1.0	Confirmation of minutes of the 436th RC meeting of the Registration Committee.
	RC confirm the minutes of 436 th RC meeting with some modification/corrections:- <ol style="list-style-type: none"> 1. Agenda No. 6.16:- The name of the molecule may be corrected as Pyrifluquinazon instead of Pyrifluinazon. 2. Agenda No. 6.18:- The percentage of active ingredient may be corrected as Bifenthrin Technical 92% instead of Bifenthrin Technical 96%.
2.0	<u>Presentation</u>
2.1	Presentation by M/s Sumitomo Chemical India Ltd., for extension of validity period of their CR in respect of <i>Clothianidin technical 95% w/w min.</i>
	The applicant made a presentation and RC approved the request of M/s Sumitomo Chemical India Ltd., for extension of validity period of their CR in respect of Clothianidin technical 95% w/w min., since there is no validity in the source country.
3.0	<u>Government Business</u>
3.1	Report of sub-committee constituted by RC in its 434th meeting on deriving the definition of new molecule.

	<p>The members deliberated the agenda in details and appreciated the efforts of the sub-committee in giving regulatory insightful broader vision while touching the important issues as assigned in the TOR.</p> <p>The RC observed that these issues involve policy matter and felt that these issues not only have direct qualitative effects on the stake holders but also contribute in taking pragmatic approach. After thorough and detailed deliberations the RC decided to approve the recommendations of the Sub-Committee. The report of the Sub-Committee is annexed as Annexure 3.1.1.</p> <p>It was further decided that a proposal may also be sent to the DA&FW for incorporating the definition in a legal frame work through amendments in Rule 2 to the Insecticides Rule, 1971.</p> <p>Furthermore, it was decided to send a proposal to DA&FW requesting for making a policy on the recommendations of the Sub-Committee related to enkindle indigenous manufacturing of pesticides under “Make in India” initiative of Govt. of India and other recommendations including policy on Production Linked base Incentives in consonance of existing policy of the Ministry of Chemicals and other ministries.</p>
3.2	Draft guidelines/data requirement proposed for registration of new formulation indigenous manufacture for post-harvest (fruit ripening only) of already registered molecule u/s 9(3).
	<p>The draft guidelines were discussed in details. It was felt that some of the studies suggested in draft guidelines may be expunged from the requirement.</p> <p>The modified guidelines were approved. The approved guidelines are annexed as Annexure-3.2.1</p>
4.0	<u>Export Cases</u>
4.1	List under section 9(3) Export applications
	<p>RC deliberated the agenda and approved the case as per Annexure 4.1.1, 4.1.2, 4.1.3 & 4.1.4. It was reiterated that the application of import for export category shall be subject to the decision taken by the committee in its 356th meeting. It was also directed to strictly follow Gazette Notification SO 3951 (E) dated 08.08.2018 published on 09.08.2018 of the Ministry of Agriculture and Farmers Welfare while issuing approval.</p>
4.2	Consideration of application of M/s SolexChemicals Pvt. Ltd., for grant of registration of <i>1R-Trans phenothrin technical 89% min.</i> for indigenous manufacture u/s 9(3) Export.
	<p>The case was deliberated in details and observed that there seems to be an error in the heading of this agenda as mentioned; indigenous manufacture for import for export only u/s 9(3) Export. This was clarified that this is an inadvertent typographical error.</p> <p>This application is for indigenous manufacture for export only u/s 9(3) Export and in view of the above clarification the case was approved.</p>
4.3	Consideration of application of M/s P I Industries Ltd., for grant of registration of <i>Ipconazole technical 97.00% w/w min.</i> for indigenous manufacture for import for export only u/s 9(3) Export.
	<p>The case was deliberated in details and observed that there seems to be an error in the heading of this agenda as mentioned; indigenous manufacture for import for export only u/s 9(3) Export. This was clarified that this is an inadvertent typographical error.</p> <p>This application is for indigenous manufacture for export only u/s 9(3) Export in view of the</p>

	above clarification the case was approved.
4.4	Consideration of application of M/s Hikal Ltd., for grant of registration of <i>Benzofenap technical 95.0% w/w min.</i> for indigenous manufacture for import for export only u/s 9(3) Export.
	The case was deliberated in details and observed that there seems to be an error in the heading of this agenda as mentioned; indigenous manufacture for import for export only u/s 9(3) Export. This was clarified that this is an inadvertent typographical error. This application is for indigenous manufacture for export only u/s 9(3) Export in view of the above clarification the case was approved.
4.5	Consideration of application of M/s UPL Ltd., for grant of registration of <i>Tebuthiuron technical 97.00% w/w min.</i> for indigenous manufacture for import for export only u/s 9(3) Export.
	The case was deliberated in details and observed that there seems to be an error in the heading of this agenda as mentioned; indigenous manufacture for import for export only u/s 9(3) Export. This was clarified that this is an inadvertent typographical error. This application is for indigenous manufacture for export only u/s 9(3) Export in view of the above clarification the case was approved.
4.6	Consideration of application of M/s Deccan Fine Chemicals, for grant of registration of <i>Florylpicoxamid technical 93.00% w/w min.</i> for indigenous manufacture for import for export only u/s 9(3) Export.
	The case was deliberated in details and observed that there seems to be an error in the heading of this agenda as mentioned; indigenous manufacture for import for export only u/s 9(3) Export. This was clarified that this is an inadvertent typographical error. This application is for indigenous manufacture for export only u/s 9(3) Export in view of the above clarification the case was approved.
4.7	Consideration of application of M/s AstecLifeSciences Ltd., for grant of registration of <i>Cyclopyrimorate technical 97% w/w min.</i> for indigenous manufacture for import for export only u/s 9(3) Export.
	The case was deliberated in details and observed that there seems to be an error in the heading of this agenda as mentioned; indigenous manufacture for import for export only u/s 9(3) Export. This was clarified that this is an inadvertent typographical error. This application is for indigenous manufacture for export only u/s 9(3) Export in view of the above clarification the case was approved.
5.0	<u>9(3B) Cases</u>
5.1	Consideration of an application of M/s Embio Ltd., for grant of registration for indigenous manufacture of biopesticide <i>Trichoderma virens 1.0% WP</i> under section 9(3b) [strain MTCC 794, Accession No. MTCC 11567].
	RC deliberated the agenda and approved for grant of registration for Indigenous manufacture of biopesticide <i>Trichoderma virens 1.0% WP</i> for control of Collar rot (<i>Sclerotium rolfsii</i>).
5.2	Follow up action of an agenda item no. 2.1 of 436th meeting regarding grant of registration to M/s Total Oil India Pvt. Ltd., for indigenous manufacture of <i>Petroleum Derived Spray Oil 95% min.</i> (PDSO) (FIM) u/s 9(3b).
	RC deliberated the agenda and approved for grant of registration for indigenous manufacturing of Petroleum Derived Spray Oil 95% min. (PDSO) for the control of European red mite (<i>Panonychusulmi</i>) in apple.

5.3	Follow up action of an agenda item no. 11.1 of 426th meeting regarding grant of registration to M/s Sabri Petroleum & Chemicals Pvt. Ltd., for indigenous manufacture of Petroleum Derived Spray Oil 95% min. (w/w) (PDSO) FIM u/s 9(3b).
	R.C. deliberated the agenda and considering the point raised by the toxicology expert decided that the deficiencies in respect of toxicology be communicated again to the applicant. On receipt of replies of the deficiencies along with requisite toxicology data as per approved guidelines, will be evaluated and the complete agenda to be put up in the RC meeting for consideration.
6.0	<u>9(3) CASES</u>
	<u>9(3) Chemicals</u>
6.1	Consideration of an application of M/s Bharat Rasayan Ltd., for grant of registration for indigenous manufacture of Spiromesifen Technical 96.50% w/w min. (TIM vs TI) under section 9(3).
	RC deliberated the agenda and approved for grant of registration for Technical Indigenous Manufacture (TIM) of Spiromesifen technical 96.50% w/w min.
6.2	Consideration of an application of M/s Gharda Chemicals Ltd., for grant of registration for indigenous manufacture of Pyraclostrobin Technical 97.00% w/w min. (TIM vs TI) under section 9(3).
	RC deliberated the agenda and approved for grant of registration for Technical Indigenous Manufacture (TIM) of Pyraclostrobin technical 97.00% w/w min.
6.3	Consideration of an application of M/s Sumitomo Chemical India Ltd., for grant of registration for indigenous manufacture of Clothianidin 3.5% + Pyriproxyfen 8% SE under section 9(3) FIM.
	RC deliberated the agenda and approved for grant of registration for indigenous manufacture of Clothianidin 3.5% + Pyriproxyfen 8% SE for control of Whitefly (<i>Bemisia tabaci</i>), Aphids (<i>Aphis gossypii</i>), Jassid (<i>Amrasca biguttulabiguttula</i>) and thrips (<i>Thrips tabaci</i>) in Brinjal and Cotton. Subject to MRL fixation. A cautionary statement may be incorporated on the label and leaflet "The product is very toxic to bees, fish, and aquatic invertebrates and as such may not be used during foraging period of bees and around aquaculture".
6.4	Consideration of an application of M/s Dow Agro Science India Pvt. Ltd., for grant of registration for indigenous manufacture of Sulfoxaflor 21.8% SC under section 9(3) FIM vs FIT.
	RC deliberated the agenda and defer the agenda in light of Agenda item no. 6.15.
6.5	Consideration of an application of M/s Dow Agro Sciences India Pvt. Ltd., for grant of registration for indigenous manufacture of Sulfoxaflor 11.4% SC under section 9(3) FIM.
	RC deliberated the agenda and defer the agenda in light of Agenda item no. 6.15.
6.6	Consideration of an application of M/s GSP Crop Science Pvt. Ltd., for grant of registration for indigenous manufacture of Clothianidin 50% WG under section 9(3) FIM vs FIT.
	RC deliberated the agenda and approved for grant of registration of Clothianidin 50% WG for control of Brown plant hopper on Rice (Paddy); Jassids, Whitefly on Cotton; Jassids, Aphids, Thrips, Whitefly on Cotton (Soil drench); Termite on Sugarcane (Soil drench);

	Mosquito Bug (<i>Helopeltistheiovora</i>) on Tea.
6.7	Consideration of an application of M/s Coromandel International Ltd., for grant of registration for indigenous manufacture of Halosufluron methyl 75% WDG under section 9(3) FIM vs FIT.
	RC deliberated the agenda and approved for grant of registration of Halosufluron methyl 75% WDG for control of <i>Cyperus rotundus</i> on Sugarcane; <i>Cyperus rotundus</i> , <i>Cyperus iria</i> on Maize; <i>Cyperus rotundus</i> , <i>Cyperus iria</i> on Bottle gourd.
6.8	Consideration of an application of M/s Sumitomo Chemical India Ltd., for grant of registration for indigenous manufacture of Fenpropathrin 10% EW under section 9(3) FIM.
	RC deliberated the agenda and approved for grant of registration for indigenous manufacture of Fenpropathrin 10% EW for control of stem borer (<i>Scirpophagaincertulas</i>) and leaf folder (<i>Cnaphalocrocismedinalis</i>) in rice. A cautionary statement may be incorporated on the label and leaflet “This product is very toxic to honeybees and thus should be voided during active bee foraging period of the day”.
6.9	Consideration of an application of M/s Sumitomo Chemical India Ltd., for grant of registration for indigenous manufacture of Pyriproxyfen 10% EW under section 9(3) FIM.
	RC deliberated the agenda and approved for grant of registration for indigenous manufacture of Pyriproxyfen 10% EW for control of Whitefly (<i>Bemisiatabaci</i>), Jassid (<i>Amrascadevastans</i>) and thrips (<i>Thrips tabaci</i>) in cotton. A cautionary statement may be incorporated on the label and leaflet “This product is very toxic to fishes and aquatic organisms and thus its use should be voided in and around water bodies”.
6.10	Consideration of an application of M/s ADAMA India Pvt. Ltd., for grant of registration for indigenous manufacture of Azoxysrobin 5.1% + Tebuconazole 9.1% + Prochloraz 18.2% EC under section 9(3) FIM.
	RC deliberated the agenda and approved for grant of registration for Indigenous manufacture of Azoxysrobin 5.1% + Tebuconazole 9.1% + Prochloraz 18.2% EC for control of Blast (<i>Pyriculariaoryzae</i>) & Sheath Blight (<i>Rhizoctonia solani</i>) in Rice, Anthracknose, Leaf spot, Dieback and fruit rot (<i>colletotrichumcapsici</i>) and powdery mildew (<i>Lavillulataurica</i>) in chilli, Leaf Spot (<i>CercosporaCanescens</i>), Powdery mildew (<i>Erysiphe poligoni</i>) subject to fixation of MRL.
6.11	Consideration of an application of M/s UPL Ltd., for grant of registration for indigenous manufacture of Azoxysrobin 1.3% + Tebuconazole 0.22% + Thiamethoxam 25.9% FS under section 9(3) FIM.
	RC deliberated the agenda and approved for grant of registration for indigenous manufacture of Azoxysrobin 1.3% + Tebuconazole 0.22% + Thiamethoxam 25.9% FS for control of Aphids and Jassids in Okra through seed treatment. A cautionary statement may be incorporated on the label and leaflet “The Tebuconazole shows low risk to aquatic organisms, Azoxystrobin is reported to be moderately to highly toxic to fish and aquatic invertebrates and Thiamethoxam is very toxic to aquatic organisms and thus its use in around water bodies should be avoided”.
6.12	Consideration of an application of M/s Tropical Agrosystem (Inida) Pvt. Ltd., for grant of registration for technical import of Chlorimuron ethyl technical 95% w/w min. under section 9(3) (TI vs TIM).

	<p>The appellate authority directed the RC in Appeal no.12 of 2021, to reconsider the application of the appellant, M/S Tropical Agrosystem (India) Pvt. Ltd. on merits, based on the earlier decisions taken by it in the past.</p> <p>As per direction of appellate authority, the RC deliberated the agenda and after considering previous decisions, approved for registration of technical import of Chlorimuron ethyl technical 95% w/w min. Further, the RC decided that hence forth such type of applications should not be considered.</p>
6.13	Consideration of an application of M/s Rainbow Agrosiences Pvt. Ltd., Ltd., for grant of registration for technical import of Propiconazole technical 95% w/w min. under section 9(3) (TI vs TIM).
	RC deliberated the agenda and approved for grant of registration for technical import of Propiconazole technical 95% w/w min. as per the directions of Hon'ble Gujarat High court order dated 26.08.2020 vide application no. 10804 of 2019 manufactured by M/s Shandong Weifang Rainbow Chemicals Co. Ltd., Binhai Economic Development Area, Weifang, Shandong, China and the source is valid up to 14.01.2025
6.14	Follow up action of 436th RC meeting vide agenda item no. 2.2 (M/s Dow Agro Sciences India Pvt. Ltd., for grant of registration of technical import of Methoxyfenozide technical 97% w/w min. u/s 9(3) TI.
	RC deliberated the agenda and approved for grant of registration of technical import of Methoxyfenozide technical 97% w/w min. manufactured by M/s Dow Agroscience Italia s.r.l, Socio Unico, Stabilimento di Mozzanica S.S. 11 Km. 190,2 24050 Mozzanica (Bergamo), Italia and supplied by M/s Dow Agroscience, Switzerland S.A (Bachtobelstrasse, 8810 Horgen, Switzerland) and the validity of source is no longer set until withdrawn .
6.15	Consideration of an application of M/s Dow AgroScience India Pvt. Ltd., for grant of registration for technical import of Sulfoxaflor technical 95% w/w min. under section 9(3) TI.
	RC deliberated the agenda and decided to call the applicant to make presentation for providing clarification on purity in the next RC meeting.
6.16	Consideration of an application of M/s Rallis India Ltd., for grant of registration for technical import of Fenoxanil technical 95% w/w min. under section 9(3) TI.
	RC deliberated the agenda and approved for grant of registration for technical import of Fenoxanil technical 95% w/w min. manufactured and supplied by M/s Nihon Nohyaku Co. Ltd., 19-8, Kyobashi, 1-chome, Chuo-ku, Tokyo 104-8386, Japan and the validity of source is no longer set until withdrawn.
6.17	Consideration of an application of M/s Rallis India Ltd., for grant of registration for indigenous manufacture of Fenoxanil 5% + Isoprothiolane 30% EC under section 9(3) FIM.
	RC deliberated the agenda and approved for grant of registration for Indigenous manufacture of Fenoxanil 5% + Isoprothiolane 30% EC for control of Leaf blast, neck blast (<i>Pyriculariaoryzae</i>). A cautionary statement may be incorporated on the label and leaf that "The product may be toxicity to fish and aquatic invertebrates and as such may not be used in and around aquaculture".
6.18	Follow up action of the 436th RC decision vide agenda item no. 6.5 regarding consideration of an application of M/s FMC India Pvt. Ltd., for grant of registration for technical import of Clothianidin technical 98% w/w min. u/s 9(3) TI (new source).

	RC deliberated the agenda and approved for grant of registration for technical import of Clothianidin technical 98% w/w min. manufactured and supplied by Jiangsu Flag Chemical Industry Co.Ltd., Changfenghe Road, Nanjing Chemical Industrial Park, Luhe, Nanjing, Jiangsu, 210047, China and the source is valid up to 27.01.2026.
6.19	Follow up action of the 436th RC decision vide agenda item no. 6.6 regarding consideration of an application of M/s FMC India Pvt. Ltd., for grant of registration for indigenous manufacture Bifenthrin 8% + Clothianidin 10% SC. u/s 9(3) FIM.
	RC deliberated the agenda and approved for grant of registration for indigenous manufacturing of Bifenthrin 8% + Clothianidin 10% SC for the control of Whitegrub, thrips and aphids in ground nut; grey weevil, mealy bug, jassids, whitefly, aphids and thrips in cotton and termites and early shoot borer in sugarcane. Subject to MRL fixation. A cautionary statement may be incorporated on the label and leaflet “Bifenthrin is highly toxic to fish and small aquatic organisms and Clothianidin is low toxic to fish and very toxic to aquatic organisms thus should be avoided during active foraging period of bees and may be avoided near aquaculture”.
	<u>9(3) Bio-pesticides</u>
6.20	Consideration of an application of M/s Dewborn Agro Chemicals for grant of registration for indigenous manufacture of bio-pesticide <i>Beauveria bassiana</i> 1.15% WP under section 9(3) [Strain BB-ICAR-RJP, Accession No. MCC 1022].
	RC deliberated the agenda and approved.
6.21	Consideration of an application of M/s Krishi Vikas Sahakari Samiti Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Beauveria bassiana</i> 1.15% WP under section 9(3) [Strain BB-ICAR-RJP, Accession No. MCC 1022].
	RC deliberated the agenda and approved.
6.22	Consideration of an application of M/s Ami Agro Agency, for grant of registration for indigenous manufacture of bio-pesticide <i>Beauveria bassiana</i> 1.15% WP under section 9(3) [Strain BB-ICAR-RJP, Accession No. MCC 1022].
	RC deliberated the agenda and approved.
6.23	Consideration of an application of M/s Genique Bio Care Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Beauveria bassiana</i> 1.15% WP under section 9(3) [Strain BB-ICAR-RJP, Accession No. MCC 1022].
	RC deliberated the agenda and approved.
6.24	Consideration of an application of M/s P J Margo Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma harzianum</i> 1.0% WP under section 9(3) [Strain IIHR-Th-2, Accession No. ITCC 6888].
	RC deliberated the agenda and approved.
6.25	Consideration of an application of M/s Synergy Crop Science Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma harzianum</i> 1.0% WP under section 9(3) [Strain IIHR-Th-2, Accession No. ITCC 6888].
	RC deliberated the agenda and approved.

6.26	Consideration of an application of M/s Ashwathy Green Enterprise Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma harzianum</i> 1.0% WP under section 9(3) [Strain IIHR-Th-2, Accession No. ITCC 6888].
	RC deliberated the agenda and approved.
6.27	Consideration of an application of M/s Gujarat Eco Microbial Technologies Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma harzianum</i> 1.0% WP under section 9(3) [Strain IIHR-Th-2, Accession No. ITCC 6888].
	RC deliberated the agenda and approved.
6.28	Consideration of an application of M/s Ganesh Bio Control System for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma harzianum</i> 1.0% WP under section 9(3) [Strain IIHR-Th-2, Accession No. ITCC 6888].
	RC deliberated the agenda and approved.
6.29	Consideration of an application of M/s Krishi Vikas Sahakari Samiti Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Verticillium lecanii</i> 1.15% WP under section 9(3) [Strain As-MEGH-VL, Accession No. MCC 1028].
	RC deliberated the agenda and approved.
6.30	Consideration of an application of M/s Prosustainb PSH Biotech Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Verticillium lecanii</i> 1.15% WP under section 9(3) [Strain As-MEGH-VL, Accession No. MCC 1028].
	RC deliberated the agenda and approved.
6.31	Consideration of an application of M/s Geniqe Bio Care for grant of registration for indigenous manufacture of bio-pesticide <i>Verticillium lecanii</i> 1.15% WP under section 9(3) [Strain As-MEGH-VL, Accession No. MCC 1028].
	RC deliberated the agenda and approved.
6.32	Consideration of an application of M/s P J Margo Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Pseudomonas fluorescens</i> 1.0% WP under section 9(3) [Strain IIHR-PF-2, Accession No. ITCC B0034].
	RC deliberated the agenda and approved.
6.33	Consideration of an application of M/s Prosustainh PSH Biotech Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Pseudomonas fluorescens</i> 1.0% WP under section 9(3) [Strain IIHR-PF-2, Accession No. ITCC B0034].
	RC deliberated the agenda and approved.
6.34	Consideration of an application of M/s Vishakan Biotech Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Pseudomonas fluorescens</i> 1.0% WP under section 9(3) [Strain IIHR-PF-2, Accession No. ITCC B0034].
	RC deliberated the agenda and approved.
6.35	Consideration of an application of M/s Krishi Vigyan Kendra, for grant of registration for indigenous manufacture of bio-pesticide <i>Pseudomonas fluorescens</i> 1.0% WP under

	section 9(3) [Strain IIHR-PF-2, Accession No. ITCC B0034].
	RC deliberated the agenda and approved.
6.36	Consideration of an application of M/s Innovac Bioscience Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Pseudomonas fluorescens 1.0% WP</i> under section 9(3) [Strain IIHR-PF-2, Accession No. ITCC B0034].
	RC deliberated the agenda and approved.
6.37	Consideration of an application of M/s Genique Bio Care Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Pseudomonas fluorescens 1.0% WP</i> under section 9(3) [Strain IIHR-PF-2, Accession No. ITCC B0034].
	RC deliberated the agenda and approved.
6.38	Consideration of an application of M/s AnanadAgro Care for grant of registration for indigenous manufacture of bio-pesticide <i>Pseudomonas fluorescens 1.0% WP</i> under section 9(3) [Strain IIHR-PF-2, Accession No. ITCC B0034].
	RC deliberated the agenda and approved.
6.39	Consideration of an application of M/s Ashwathy Green Enterprise Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma viride 1% WP</i> under section 9(3) [Strain TNAU-TV-1, Accession No. ITCC 6914].
	RC deliberated the agenda and approved.
6.40	Consideration of an application of M/s Geniqe Bio Care Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma viride 1% WP</i> under section 9(3) [Strain TNAU-TV-1, Accession No. ITCC 6914].
	RC deliberated the agenda and approved.
6.41	Consideration of an application of M/s Tender SIP, for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma viride 1% WP</i> under section 9(3) [Strain TNAU-TV-1, Accession No. ITCC 6914].
	RC deliberated the agenda and approved.
6.42	Consideration of an application of M/s Synergy Crop Science Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Verticillium chlamyosporium 1% WP</i> under section 9(3) [Strain IHR-VC-3, Accession No. ITCC 6898].
	RC deliberated the agenda and approved.
6.43	Consideration of an application of M/s Oshnic Crop Science Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Verticillium chlamyosporium 1% WP</i> under section 9(3) [Strain IHR-VC-3, Accession No. ITCC 6898].
	RC deliberated the agenda and approved.
6.44	Consideration of an application of M/s P J Margo Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Verticillium chlamyosporium 1% WP</i>

	under section 9(3) [Strain IHR-VC-3, Accession No. ITCC 6898].
	RC deliberated the agenda and approved.
6.45	Consideration of an application of M/s Jay Research and Biotech India Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Verticillium chlamyosporium</i> 1% WP under section 9(3) [Strain IHR-VC-3, Accession No. ITCC 6898].
	RC deliberated the agenda and approved.
6.46	Consideration of an application of M/s Krishi Vikas Sahakari Samiti Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma viride</i> 1.5% WP under section 9(3) [Strain IHR-TV-5, Accession No. ITCC 6889].
	RC deliberated the agenda and approved.
6.47	Consideration of an application of M/s P J Margo Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma viride</i> 1.5% WP under section 9(3) [Strain IHR-TV-5, Accession No. ITCC 6889].
	RC deliberated the agenda and approved.
6.48	Consideration of an application of M/s NavinBiotech, for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma viride</i> 1.5% WP under section 9(3) [Strain IHR-TV-5, Accession No. ITCC 6889].
	RC deliberated the agenda and approved.
6.49	Consideration of an application of M/s Gujarat Eco Microbial Technologies Pvt. Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma viride</i> 1.5% WP under section 9(3) [Strain IHR-TV-5, Accession No. ITCC 6889].
	RC deliberated the agenda and approved.
6.50	Consideration of an application of M/s Vishakan Biotech Pvt. Ltd., grant of registration for indigenous manufacture of bio-pesticide <i>Trichoderma viride</i> 1.5% WP under section 9(3) [Strain IHR-TV-5, Accession No. ITCC 6889].
	RC deliberated the agenda and approved.
6.51	Consideration of an application of M/s Gujarat Eco Microbial Technologies, for grant of registration for indigenous manufacture of bio-pesticide <i>Metrhiziumanisopliae</i> 1.0% WP under section 9(3) [Strain IPL/KC/44 Accession No. ITCC 6895].
	RC deliberated the agenda and approved.
6.52	Consideration of an application of M/s Oshnic Crop Science Ltd., for grant of registration for indigenous manufacture of bio-pesticide <i>Metrhiziumanisopliae</i> 1.0% WP under section 9(3) [Strain IPL/KC/44 Accession No. ITCC 6895].
	RC deliberated the agenda and approved.
6.53	Consideration of an application of M/s Maa Narsai Biotech & Chemicals, for grant of registration for indigenous manufacture of bio-pesticide <i>Verticillium lecanii</i> 1.15% WP

	under section 9(3) [Strain NAIMCC-F-03007].
	RC deliberated the agenda and rejected the case as the ATR report is not satisfactory.
	<u>9(3) Chemicals</u>
6.54	Consideration of an application of M/s Rallis India Ltd., for grant of registration for indigenous manufacture of <i>Pendimethalin 40% + Metribuzin 8% EC</i> under section 9(3) FIM.
	RC deliberated the agenda and approved for grant of registration for indigenous manufacture of Pendimethalin 40% + Metribuzin 8% EC for control of <i>Phalaris minor, Chenopodium album, Anagallis arvensis, Melilotus spp., Medicago spp.</i> in Wheat crop. The MRL of Pendimethalin and Metribuzin on wheat crop is already fixed as 0.05 ppm, 0.03 ppm respectively. A cautionary statement may be incorporated on the label and leaflet that “The product is moderately toxic to fish and aquatic organisms and thus its use in around water bodies should be avoided”.
6.55	Consideration of an application of M/s Best Crop Science Pvt. Ltd., for grant of registration for indigenous manufacture of <i>Pyriproxyfen 8% + Dinotefuran 5% + Diafenthiuron 18% SC</i> under section 9(3) FIM.
	RC deliberated the agenda and approved for grant of registration of Pyriproxyfen 8% + Dinotefuran 5% + Diafenthiuron 18% SC for control of whitefly, jassids, thrips and aphids on Brinjal subject to fixation of MRL. A cautionary statement may be incorporated on the label and leaflet that “This product is toxic to aquatic organism and fish and highly toxic to honey bees thus may be avoided near aquaculture and during active bee foraging period of the day”.
7.0	<u>9(4) TIM CASES</u>
7.1	Consideration of application of M/s Maheshwari Biochemical Pvt. Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Azoxystrobin Technical 95% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Azoxystrobin Technical 95% w/w min. under section 9(4).
7.2	Consideration of application of M/s Deccan Fine Chemicals (India) Pvt. Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Penoxasulam Technical 98% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Penoxasulam Technical 98% w/w min. under section 9(4).
7.3	Consideration of application of M/s Rotam Crop Protection Pvt. Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Lambda cyhalothrin technical 84% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Lambda cyhalothrin technical 84% w/w min. under section 9(4).
7.4	Consideration of application of M/s Mahamaya Lifesciences Pvt. Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Mancozeb technical 85% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Mancozeb technical 85% w/w min. under section 9(4).

7.5	Consideration of application of M/s Maharashtra Bio Fertilizers India Pvt. Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Bispyribac sodium technical 95% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and rejected the case as the ATR of sample is found non satisfactory.
7.6	Consideration of application of M/s HPM Chemicals and Fertilizers Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Bispyribac sodium technical 95% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Bispyribac sodium technical 95% w/w min. under section 9(4).
7.7	Consideration of application of M/s Bharat Rasayan Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Carboxin technical 97% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Carboxin technical 97% w/w min. under section 9(4).
7.8	Consideration of application of M/s Agro Life Science Corporation, for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Tebuconazole technical 95% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Tebuconazole technical 95% w/w min. under section 9(4).
7.9	Consideration of application of M/s Best Crop Science Pvt. Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Pyriithiobac sodium technical 90% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Pyriithiobac sodium technical 90% w/w min. under section 9(4).
7.10	Consideration of application of M/s Agrico Organics Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Butachlor technical 85% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Butachlor technical 85% w/w min. under section 9(4).
7.11	Consideration of application of M/s HPM Chemical & Fertilizers Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Mancozeb technical 85% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Mancozeb technical 85% w/w min. under section 9(4).
7.12	Consideration of application of M/s Bharat Products Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Hexaconazole technical 92% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Hexaconazole technical 92% w/w min. under section 9(4).
7.13	Consideration of application of M/s Cropnosys India Pvt. Ltd., for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Pyroxyfen technical 98% w/w min. u/s 9(4).</i>
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Pyroxyfen technical 98% w/w min. under section 9(4).
7.14	Consideration of application of M/s Meenakshi Agro Chemicals for grant of registration for Technical Indigenous Manufacture (TIM) of <i>Thiamethoxam technical 97% w/w min. u/s 9(4).</i>

	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Thiamethoxam technical 97% w/w min. under section 9(4).
7.15	Consideration of application of M/s Agro Life Science Corporation, for grant of registration for Technical Indigenous Manufacture (TIM) of Imazethapyr technical 97% w/w min. u/s 9(4).
	RC deliberated the agenda and approved for grant of Registration for indigenous manufacture of Imazethapyr technical 97% w/w min. under section 9(4).
8.0	Online filling of application for registration under section 9(4) FIM/FI/TI.
8.1	Consideration of applications for grant of registration for Formulation Indigenous Manufacture (FIM) under section 9(4).
	Committee deliberated the agenda and approved 5627 cases, kept 33 case under clarification (for use of lead / pending consent verification), and rejected 7 cases under section 9(4) FIM category, listed as Annexure – 8.1.1. In case of satisfactory cases, CRs shall be issued only after submission of the original consent letter (affidavit hard copy) by the applicant, if applicable, forwarded by authorized signatory only, within 30 days from the uploading of the minutes. In case the original consent is already submitted before the minutes are uploaded, then the applicant is required to submit the copy of the acknowledgement, within 15 days from the uploading of the minutes, to reconcile, afterwards no such request shall be entertained to issue the Certificate of Registration.
8.2	Consideration of applications of M/s Krishi Rasayan and M/s Agro Life Science Corporation for grant of registration of Glyphosate technical 95.0% w/w min. for import only u/s 9(4).
	Committee deliberated the agenda and approved the case of Glyphosate Technical 95% min, for import only U/s 9(4), from M/s Shanghai Hujiang Biochemical Co., Ltd., China through their authorized supplier M/s FJ Agrochemicals Co., Ltd., with validity up to 29.08.2026, subject to the submission of original consent letter from the source and an affidavit that the applicant does not possess any certificate of registration for Technical Indigenous Manufacture (TIM)) in case of M/s Agro Life Science Corporation(CSN -181577).and rejected the case of M/s Krishi Rasayan (C.S.N 177608) as the RC noted that the firm has already obtained the endorsement of change of name.
8.3	Consideration of applications of M/s Future Chem Agro Pvt. Ltd., and M/s IFFCO-MC Crop Science Pvt. Ltd., for grant of registration of Paraquat dichloride technical 42.0% w/w min. for import only u/s 9(4).
	Committee deliberated the agenda and approved the cases of: 1. M/s Future Chem Agro Private Limited (C.S.N 182986) 2. M/s IFFCO-MC Crop Science Private Limited (C.S.N 183326) of Paraquat dichloride Technical 42% w/w min, for import only U/s 9(4), from M/s Comlets Chemical Industrial Co. Ltd., Taichung, Taiwan, with validity up to 25.01.2026, subject to the submission of original consent letter from the source and original affidavit that the applicant does not possess any certificate of registration for Technical Indigenous

	Manufacture (TIM).
8.4	Consideration of applications of M/s Globex Agri Science Pvt. Ltd., for grant of registration of <i>Butachlor technical 85.0% w/w min.</i> for import only u/s 9(4).
	Committee deliberated the agenda and approved the case of <i>Butachlor technical 85.0% w/w min.</i> for import only from M/s Sinon Corporation, 1 FL., Taichung, Taiwan, with validity up to 10.04.2023, subject to the submission of original consent letter from the source and affidavit that the applicant does not possess any certificate of registration for Technical Indigenous Manufacture (TIM). (C.S.N 178264)
8.5	Consideration of applications of M/s ADAMA India Pvt. Ltd., for grant of registration for import of <i>Ethephon technical 89.0% w/w min.</i> for import only u/s 9(4).
	Committee deliberated the agenda and approved the case of Ethephon Technical 89.0 % w/w Minimum for import only U/s 9(4) of the Insecticide Act 1968 from M/s ADAMA Anpon (Jiangsu) Ltd., with validity up to 12.04.2024, subject to the confirmation of the partial operation of the Indian embassy in China and further submission of original consent letter from the source and affidavit that the applicant does not possess any certificate of registration for Technical Indigenous Manufacture (TIM). (C.S.N 182795)
8.6	Consideration of an application of M/s Veer Hues Ltd., for the incorporation of change of chemical composition in the registration certificate of <i>Deltamethin 1% RTU (Insect control paint)</i> u/s 9(4).
	Committee deliberated the agenda and approved the case for grant of registration with incorporation of minor change of chemical composition in the registration certificate of Deltamethrin 1% RTU(insect control paint) with replacement of lead octate drier with the combination of Zirconium octate and Calcium octate.
8.7	Consideration of an application of M/s NACL Industries Ltd., for extension of validity of registration certificate of <i>Fenobucarb (BPMC) technical 95.0% w/w min.</i> for import only u/s 9(4).
	Committee deliberated the agenda and approved the cases for extension of validity of registration of Fenobucarb Tech. 95.0% w/w min for import only U/s 9(4), from M/s Hunan Haili Chemical Industry Co., Ltd. Hunan, China with validity upto 26.10.2026, subject to the submission of original consent letter and affidavit that the applicant does not possess any certificate of registration for Technical Indigenous Manufacture (TIM). (C.S.N 184327)
8.8	Consideration of an application of M/s Saraswati Agro Chemicals (India) Pvt. Ltd., for correction of validity period in registration certificate of <i>Fenazaquin technical 97.5% w/w min.</i> for import only u/s 9(4).
	Committee deliberated the agenda and approved the correction of validity period in registration certificate of Fenazaquin technical 97.5% w/w min. for import only u/s 9(4) as until withdrawn in place of 31.12.2021. (C.S.N 200695)
9.0	<u>ENDORSEMENT CASES</u>
	<u>Legal Endorsement cases</u>

9.1	Consideration of the request from Ferti-Chem India for endorsement of name change of the factory address Village- Sindhawali, Meerut-250001 to 132, Mansarover Industrial Estate (Extn.) Baghat Road, Meerut-250002 on 28 No's of certificate of registrations .
	RC deliberated the agenda and observed that the applicant had afresh applied for the endorsement of factory address and had submitted the NOC from State Department of Agriculture. RC decided to approve the same. RC further observed that the applicant had requested for withdrawn of the earlier application submitted by him without NOC. RC decided to reject the application as withdrawn.
9.2	Consideration of the request from M/s Bharat CertisAgriSciences Ltd., for endorsement of change of the registered office address from 1506, Vikram Tower, Rajendra Place New Delhi-110008 to Office unit 301, 3rd floor, Worldmark 3, asset No.7, Hospitality District, Aerocity, NH-8, New Delhi South West Delhi on copper Hydroxide 46.1 % WG (30% metallic copper content) vide CIR-196714/2022-Copper Hydroxide (WG)(435)-3.
	RC deliberated the agenda and approved.
9.3	Consideration of the request from M/s Ralph AgroRasayan Pvt. Ltd. for endorsement of name change of the Company from M/s Pushti Agro Products Pvt Ltd., to M/s Ralph AgroRasayan Pvt. Ltd. on 09 No's of certificate of registrations.
	<p>RC deliberated the agenda and observed that the applicant had applied for change of the company name on 09 Certificate of Registration. RC decided that the applicant should submit a justification as to why he has applied for the change of company name for only 09 CRs. Further the applicant should also submit the details of the CRs issued in its favor along with the stocks available as on date of change of the company name with registrar of companies.</p> <p>RC further felt it expedient to form a group under the Chairmanship of Shri. Subhash Chand, Joint Director (Chemistry) along with Dr. S.K Jain Senior Consultant (M.T) and Shri. Hariom Miglani, Senior Law Officer as members, to revisit the entire checklist approved by RC in its 409th Meeting pertaining to change of company name, transfers of CRs, endorsement of factory address and other allied issues and suggest if some more requirements are required to be incorporated in order to strengthen the regulatory system in line with the provisions of the Insecticides Act, 1968 and Rules 1971. RC desired that the group shall examine the issues expeditiously and submit their recommendation to the next RC.</p>
9.4	Consideration of the request from M/s Bharat CertisAgriScience Limited for endorsement of change of Registered office address from 1506, Vikram Tower, Rajendra Place New Delhi-110008 To office Unit 301, 3rd Floor, Worldmark 3, asset No. 7, Hospitality district, Aerocity, NH-8, New Delhi South West Delhi-110037 IN on 442 No's of certificate of registrations.
	RC deliberated the agenda and approved.
9.5	Consideration of the request from M/s HPM Chemicals & Fertilizers Limited for endorsement of change of office address from situated at 209-210, Anupam Bhawan, Azadpur Commercial Complex, Delhi-110033 To 402-412, 412 A, 414, Plot no P1 4th Floor, P.P. Trade centre, Netaji Subhash Delhi-110034 on 535 No's of certificate of registrations.

	RC deliberated the agenda and approved.
9.6	Consideration of the request from M/s Omkar Agri Global Pvt Ltd for endorsement of change of factory address situated at Khasra No 457, Meerut Road Begrajpur, Muzaffarnagar, U.P 08 No's of certificate of registrations.
	RC deliberated the agenda and approved.
9.7	Consideration of the request from M/s Safex Chemicals India Ltd., for endorsement of change of Office Address M/s Safex Chemicals India Ltd situated at 4th& 5th Floor, NDM-1, Netaji Subhash Place Delhi, North west Delhi-110034 on 241 No's of certificate of registrations .
	RC deliberated the agenda and approved.
9.8	Consideration of the request from M/s Vasudev Agri India for endorsement of shifting of addition of second unit situated at Plot No.1 leader Industrial Zone, Godhaka, Village- Kasturbadham TA & district-Rajkot-36000 (Gujarat) on 59 No's Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.9	Consideration of the request from M/s Apex Bio Sciences for endorsement of change of office address at Shop No. 4 Sr. No 43/78, 79,80,82 Sai Leela, Manaji Nagar, Mumbai Bangalore Highway, Narhe, Pune-411041, Maharashtra and factory address situated at Plot No. C-C 98/2/7, C-C 98/2/8, C-C 98/2/9, Jejuri, Industrial Area ,Taluka-Purandar , District-Pune-412303, Maharashtra on 03 No's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.10	Consideration of the request from M/s Noble Genetics Pvt Ltd., for endorsement of change of factory address from Plot No. 249/A, Paiki-9, Uma Industrial Estate, Viramgam Highway P.O.Virochan Nagar, At. VasanaLyava, a Sanand, Ahemdabad, Gujarat-234869 To Plot No. 36 Uma Industrial Estate, Viramgam, highway, Vasna Lyava-382170, Tal- Sanand, Dist:-Ahemdabad, Gujarat on 141 No's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.11	Consideration of the request from M/s Indofil Industries Limited for endorsement of additional factory address situated at " 238/1/A, GIDC, Panoli, TA:- Ankleshwar, Dist:- bharuch-394115, Gujarat on 39 No's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.12	Consideration of the request from M/s Aura Biotechnologies Pvt Ltd., for endorsement of shifting of factory address from Survey No. 270/1, Plot No. 1 and 2, Galaxy Road, Ayyanambakkam, Chennai-600095 to SF 318/1, Plot No. B4, SIPCOT, Industrial Complex, Village- Soorakkulam, Taluka- Manamadurai, District- Sivagangai-630606 on 85 No's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.13	Consideration of the request from M/s Meghmani Industries Limited for endorsement of factory address situated at 20 G2-A, Gallop Industrial park 2, Charcharvadi , Vasna, Sanand, Ahmedabad, Gujarat-382213, India on 3 No's of Certificate of

	Registration(CRs).
	RC deliberated the agenda and approved.
9.14	Consideration of the request from M/s Gujarat crop Chemicals (India) for endorsement of factory address situated at Village- Nagla Megha ,District- Karnal, Haryana-132001 on 167 No's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.15	Consideration of the request from M/s FMC India Pvt Ltd., for endorsement of change of factory address situated at No. 146, Kilavalam Village, Maduranthakam Taluk, Chengalpattu, Tamilnadu on 5 No's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.16	Consideration of the request from M/s Indofil Industries Ltd., for endorsement of factory address i.e.Indofil Industries Ltd., C/o S.S. Crop Care Pvt. Ltd., 10 Industrial Area, Govindpura, Bhopal, Pin – 462023 on the 110 nos. of certificate of registration.
	RC deliberated the agenda and approved.
9.17	Consideration of the request from M/s Senso Agrotech Pvt. Ltd., for endorsement of change of factory address situated at Plot No. J-7832, GIDC, Ankleshwar, District- Bharuch , 393002, Gujarat on 94 no's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.18	Consideration of the request from M/s Future Chem Agro Private Limited for endorsement of change of factory address situated at M.s Future Chem agro Pvt. Ltd., A-10, Industrial Area , Focal Point, malout, Village- Danewala, District- Muktsar Sahib (Punjab) on 64 No's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.19	Consideration of the request from M/s NAACL Industries Limited for endorsement of additional factory address situated at Plot No. D-2/11/B/3/2, Dahej-II, Industrial Estate, Bharuch, Gujrat-393002 on 86 No's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.20	Consideration of the request from M/s Ample Life Science Pvt., Ltd., for endorsement of change of factory address situated at Plot No. 2/A, sy. No 450/2, TSIIC, IDA Chityala, Goplaipally (Vi), Narketpally (M), Nalgonda (Dist.), Telangana on 90 No's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.21	Consideration of the request from M/s GSP Crop Science Pvt Ltd., for endorsement of additional factory address situated at Plot No. 824/28, GIDC, Industrial estate, Jhagadia, Bharuch 393110, Gujarat on Certificate of Registration of Paclobutrazol Technical 95 % Min., vide CR-160753/2019-Paclobutrazol (T)(397)-3
	RC deliberated the agenda and approved.
9.22	Consideration of the request from M/s Indofil Industries Ltd., for endorsement of additional factory address situated at 238/1/A, GIDC, Panoli, TA:- Ankleshwar, Dist:-

	Bharuch-394115, Gujarat on 41 No's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.23	Consideration of the request from M/s GSP Crop Science Pvt Ltd., for endorsement of factory address situated at Plot No. 824/28, GIDC, Industrial Estate, Jhagadia, Bharuch-393110, Gujarat on Tolfenpyrad Technical 98.50% Min., vide CIR-189178/2021- Tolfenpyrad (Technical)(431)-5.
	RC deliberated the agenda and approved.
9.24	Consideration of the request from M/s GSP Crop Science Pvt Ltd., for endorsement of factory address situated at Plot No. a-1, 441/1 Road No. 82/A, GIDC, sachin-394230, District:- Surat, Gujarat on 05 No's of Certificate of Registration(CRs).
	RC deliberated the agenda and approved.
9.25	Consideration of the request from M/s BR Agrotech Ltd., for endorsement of additional factory address situated at Plot No. 620/3, GIDC Estate, Panoli, Ankleshwar, District-Bharuch, Gujarat on Pyriproxfen 10 % EC vide CIR-162405/2019-Pyriproxfen (EC)(399)-51.
	RC deliberated the agenda and approved.
9.26	Consideration of the request from M/s BR Agrotech Ltd., for endorsement of additional factory address situated at Plot No. 620/3, GIDC Estate, Panoli, Ankleshwar, District – Bharuch, Gujarat on Cartap hydrochloride technical 98% w/w min. vide CIR-159397/2019- Cartap hydrochloride (Technical) (393) – 27.
	RC deliberated the agenda and approved.
9.27	Consideration of the request from M/s Dow AgroSciences Injia (P) Ltd., for endorsement of additional factory address situated at Survey No. 546/547, Sankarda – Bhadarwa road, Post Moxi, taluka Savli, Dist :- Vadodra, 391780, Gujarat on Haloxyfop R methyl 10.5% w/w EC vide CR No. CIR-2351/2021 (429) – Haloxyfop R methyl (EC) -02
	RC deliberated the agenda and approved.
	<u>Chemistry endorsement cases</u>
9.28	Consideration of a request of M/s ADAMA India Pvt. Ltd., for extension of validity period of their CR in respect of <i>Novaluron technical 96% w/w min. u/s 9(3)</i>
	RC deliberated the agenda and approved the request of M/s ADAMA India Pvt. Ltd., for extension of validity period of their CR in respect of Novaluron technical 96% w/w min. vide F. No. 3- FI/9(3)/2003 and registration no. CIR-1303/2012(326)-Novaluron(T)-08 and is now valid up to 22.06.2024.
9.29	Consideration of an application of M/s Indofil Industries Ltd., for endorsement of change of name of source on the registration certificate of <i>Cartap hydrochloride technical 98% w/w min. under section 9(3) TI.</i>
	RC deliberated the agenda and decided to ask the applicant to submit samples of all the five batches manufactured at the source originally registered and all the five batches manufactured at the changed manufacturing premises along with the respective reference standards to CIL for verification.

9.30	Consideration of a request of M/s PNP and Associates Pvt. Ltd., for extension of validity period of their CR in respect of <i>Paclobutrazole 23% SC</i> u/s 9(3).
	RC deliberated the agenda and approved for extension of validity period of their CR in respect of <i>Paclobutrazole 23% SC</i> u/s 9(3) vide F. No. 8-FI/9(3)/2008 and registration no, CIR-1302/2012(326)- <i>Paclobutrazol(SC)</i> -02 is valid up to 30.06.2022.
9.31	Consideration of an application of M/s Sinochem India Company Pvt. Ltd., for endorsement of change of address of supplier on the registration certificate of <i>Glyphosate technical 95% w/w min.</i> under section 9(3).
	RC deliberated the agenda and approved for endorsement of change of address of supplier on the registration certificate of <i>Glyphosate technical 95% w/w min.</i> vide F. No. 2242-TI/9(3)/2012 and registration no. CIR-1849/2016(362)- <i>Glyphosate(T)</i> -07 from M/s Sinochem International Crop Care (Overseas) Pte. Ltd., 8 Marina View, #34-03, Asa Square Tower 1, Singapore 018960 to M/s Sinochem International Crop Care (Overseas) Pte. Ltd., 1 Raffles Place #59-00 One Raffles Place Singapore 048616.
9.32	Consideration of a request of M/s ADAMA India Pvt. Ltd., for extension of validity period of their CR in respect of <i>Prochloraz 24.4% + Tebuconazole 12.1% EW</i> u/s 9(3).
	RC deliberated the agenda and approved for extension of validity period of their CR in respect of <i>Prochloraz 24.4% + Tebuconazole 12.1% EW</i> vide F. No. 5581-FI/9(3)/2014 and registration no. CIR-2186/2018(393)- <i>Prochloraz + Tebuconazole (EW)</i> -01 and is now valid up to 19.10.2024.
	<u>Herbicide endorsement cases</u>
9.33	Consideration of an application of M/s PNP & Associates Pvt. Ltd., for grant of registration of <i>Hydorgen cyanamide 49% AS</i> under section 9(3) label expansion category.
	RC deliberated the agenda and approved for grant of registration of <i>Hydorgen cyanamide 49% AS</i> for label expansion for use in Apple crop as Plant Growth Regulator (PGR), for early initiation of bud sprouting and improving the fruit quality and to enhance the yield, subject to fixation of MRL. A cautionary statement may be incorporated on the label and leaflet that “The product is toxic to fish and aquatic organisms and thus its use in around water bodies should be avoided”.
9.34	Consideration of an application of M/s Bayer Crop Science Ltd., for grant of registration of <i>Oxadiargyl 80% WP</i> under section 9(3) label expansion category.
	RC deliberated the agenda and approved for grant of registration of <i>Oxadiargyl 80% WP</i> for label expansion, for control of <i>Cyanodondactylon</i> , <i>Digitaria sp.</i> , <i>Cyperus rotundus</i> in Cabbage crop, subject to MRL fixation. A cautionary statement may be incorporated on the label and leaflet that “The product is highly to common carp and aquatic organisms and had negative effects on the growth performance, thus its use in around water bodies should be avoided”.
	<u>Plant Pathology endorsement cases</u>
9.35	M/s BASF India Ltd., has applied for the label expansion of <i>Metiram 90% WG</i> for control of Anthracnose in Chilli and scab in Apple u/s 9(3).
	RC deliberated the agenda and approved for grant of registration of <i>Metiram 90% WG</i> for label expansion on chilli for control of anthracnose and apple scab (<i>Venturia inaequalis</i>). A cautionary statement may be incorporated on the label and leaflet that “Product is very toxic to fish and aquatic invertebrates and thus the product may be avoided near aquaculture”.

9.36	M/s Bayer Crop Science has applied for the label expansion of Tebuconazole 38.39% SC in Rice and Groundnut u/s 9(3).
	RC deliberated the agenda and approved for grant of registration of Tebuconazole 38.39% SC for label expansion on Rice for control of Sheath Blight (<i>Rhizoctonia solani</i>) and on Groundnut for control of Tikka leaf spot (<i>Cercospora personata</i>).
9.37	M/s Biostadt India Ltd., has applied for the label expansion of Thiophanate methyl 70% WP in Rice u/s 9(3).
	RC deliberated the agenda and approved for grant of registration of Thiophanate methyl 70% WP for label expansion on Rice for control of Blast (<i>Pyricularia oryzae</i>), Sheath Rot (<i>Rhizoctonia solani</i>) and grain discoloration u/s 9(3) of Insecticide Act, 1968 subject to MRL fixation. A cautionary statement may be incorporated on the label and leaflet that "The product is toxic to aquatic organisms and fish. Thus the product containing the molecules may be avoided near aquaculture".
9.38	M/s ADAMA India Ltd., has applied for the label expansion of Prochloraz 24.4% + Tebuconazole 12.1% EW in Rice u/s 9(3).
	RC deliberated the agenda and approved for grant of registration of Prochloraz 24.4% + Tebuconazole 12.1% EW for label expansion on Rice for control of Blast (<i>Pyricularia oryzae</i>). A cautionary statement may be incorporated on the label and leaflet that "The product is moderate to very toxic to aquatic organisms and thus its use in around water bodies should be avoided".
9.39	List of 9(4) endorsement.
	RC deliberated the agenda and approved as per Annexure 9.39.1
	<u>Entomology endorsement cases</u>
9.40	Consideration of application for registration of label expansion of Paecilomyces lilacinus 1.15% WP under section of M/s T. Stanes and Company.
	Committee deliberated the agenda and approved for grant of registration of label expansion of Paecilomyces lilacinus 1.15% for the control of root knot nematode (<i>Meloidogyne incognita</i>) in tomato.
9.41	Consideration of application for registration of Diafenthiuron 25% + Pyriproxyfen 5% SE for label expansion u/s 9(3) of M/s GSP Crop Sciences Pvt. Ltd.
	Committee deliberated agenda and approved for grant of label expansion of Diafenthiuron 25% + Pyriproxyfen 5% SE for the control of whitefly (<i>Bemisia tabaci</i>), thrips (<i>Thrips tabaci</i>) and mites (<i>Polyphagotarsonemus latus</i>) in chilli crop. A cautionary statement may be incorporated in label & leaflets as "Both the molecules are very toxic to aquatic organisms and thus its use in around water bodies should be avoided".
9.42	Consideration of application for registration of Pymetrozine 50% WG for label expansion u/s 9(3) of M/s Syngenta India Ltd.
	Committee deliberated agenda and approved for grant of label expansion of Pymetrozine 50% WG for the control of hoppers (<i>Idioscopus niveosparsus</i> and <i>Idioscopus clypealis</i>) in mango. Subject to MRL fixation. A cautionary statement may be incorporated in label & leaflets as "This product is reported to be moderately toxic to fish, aquatic invertebrates and bees. Its use in around water bodies and during the active foraging period of bees should be avoided".
9.43	Consideration of application for registration of Fipronil 40% + Imidacloprid 40% WG for label expansion u/s 9(3) of M/s Bayer Crop Science Ltd.

	Committee deliberated agenda and approved for grant of label expansion of Fipronil 40% + Imidacloprid 40% WG for the control of jassids and thrips in cotton. A cautionary statement may be incorporated in label & leaflets as “The product is reported to be highly toxic to fish, aquatic invertebrates and bees. Its use in and around water bodies and during the active foraging period of bees should be avoided”
9.44	Consideration of application for registration of <i>Abamectin 1.9% EC</i> for label expansion u/s 9(3) of M/s Syngenta India Ltd.
	Committee deliberated agenda and approved for grant of label expansion of Abamectin 1.9% EC for the control of European Red mite and Spotted red spider mites in apple. Subject to MRL fixation. A cautionary statement may be incorporated in label & leaflets as “The product is reported very toxic to honey bees, aquatic organisms and fishes thus the product containing the molecule may be avoided near aquaculture and during active bee foraging period of the day”.
9.45	Consideration of application for registration of <i>Novaluron 5.25% + Emamectin benzoate 0.9% SC</i> for label expansion u/s 9(4) of M/s ADAMA India Pvt. Ltd.,
	Committee deliberated agenda and approved for grant of label expansion of Novaluron 5.25% + Emamectin benzoate 0.9% SC for the control of Fall Army Worm and Stem borer in maize crop. A cautionary statement may be incorporated in label & leaflets as “Both molecules are reported to be very toxic to honeybees and aquatic organisms and thus its use in and around water bodies should be avoided and should not be applied during foraging period of bees”.
9.46	Consideration of application for registration of <i>Diafenthriuron 30% + Pyriproxyfen 8% SE</i> for label expansion u/s 9(3) of M/s Parijat Industries (India) Pvt. Ltd.
	Committee deliberated agenda and approved for of label expansion of Diafenthriuron 30% + Pyriproxyfen 8% SE for the control of whitefly (<i>Bemisia tabaci</i>) in cotton crop. A cautionary statement may be incorporated in label & leaflets as “Both the molecules are very toxic to aquatic organisms and thus its use in around water bodies should be avoided”.
9.47	Consideration of application for registration of <i>Acephate 50% + Imidacloprid 1.8% SP</i> for label expansion u/s 9(3) of M/s UPL Ltd.
	Committee deliberated agenda and approved for grant of label expansion of Acephate 50% + Imidacloprid 1.8% SP for the control of termites, whitegrubs, early shoot borer, blackbug and pyrilla in sugarcane. Subject to MRL fixation. A cautionary statement may be incorporated in label & leaflets as “The product is highly toxic to fish, aquatic invertebrates and bees, thus the combination should be used by avoiding effect on these organisms”.
9.48	Consideration of application for registration of <i>Betacyfluthrin 8.49% + Imidacloprid 19.81% OD</i> for label expansion u/s 9(3) of M/s BayerCropScience Ltd.
	Committee deliberated agenda and approved for grant of label expansion of Betacyfluthrin 8.49% + Imidacloprid 19.81% OD for the control of thrips, aphids and whitefly in chilli crop. Subject to MRL fixation. A cautionary statement may be incorporated in label & leaflets as “The product is highly toxic to fish, aquatic invertebrates and bees, thus the combination should be used by avoiding effect on these organisms”.
9.49	Consideration of application for registration of <i>Chlorantraniliprole 9.3% + Lambdacyhalorhin 4.6% ZC</i> for label expansion u/s 9(3) of M/s Syngenta India Ltd.
	Committee deliberated agenda and approved for of label expansion of Chlorantraniliprole 9.3% + Lambdacyhalorhin 4.6% ZC for the control of Fall army worm (<i>Spodoptera frugiperda</i>) and stem borer (<i>Chiloptellus</i>) in maize crop. A cautionary statement may be incorporated in label & leaflets as “ This Chlorantraniliprole is slightly toxic to aquatic

	organisms but Lambda cyhalothrin is extremely toxic to aquatic organisms and fish, thus the product containing the molecules may be avoided near aquaculture” and “This product is highly toxic to honeybees and thus its use should be avoided during the active foraging period of the day”.
	<u>Plant Pathology endorsement cases</u>
9.50	Consideration of application for registration of <i>Tebuconazole 5.36% FS</i> for label expansion u/s 9(3) of M/s Bayer Crop Science Ltd.
	RC deliberated the agenda and approved the case for grant of registration of Tebuconazole 5.36% FS for label expansion on Rice for seed treatment purpose for control of Bakane/foot rot and brown leaf spot.
	<u>Packaging endorsement cases</u>
9.51	Endorsement for the addition packing in the certificate of <i>Amisulbrom 17.7% SC</i> granted to M/s Dhanuka Agritech Ltd., u/s 9(3).
	RC deliberated the agenda and approved.
9.52	Packaging endorsement for alternate packing in the certificate of registration of <i>Profenophos 40% + Cypermethrin 4% EC</i> granted to M/s P I Industries Ltd., u/s 9(4).
	RC deliberated the agenda and approved.
9.53	Packaging endorsement for additional bulk packing in the certificate of registration of <i>Sodium para nitro Phenolate 1.8% SL</i> granted to M/s OAT and IIL India Laboratories Pvt. Ltd., u/s 9(4).
	RC deliberated the agenda and approved.
9.54	Endorsement for the addition packing in the certificate of <i>Carbendazim 25% + Flusilazole 12.5% SE</i> granted to M/s Dhanuka Agritech Ltd., u/s 9(3).
	RC deliberated the agenda and approved.
9.55	Endorsement for the addition of container net content in existing transport pack of 180 liter in fiber drum with 100 kg in lieu of 70 kg in the certificate of <i>Pyroxasulfone 85% WG</i> granted to M/s PI Industries Ltd., u/s 9(3).
	RC deliberated the agenda and approved.
9.56	Packaging endorsement for additional bulk packing in the certificate of registration of <i>Triflumezopyrim 10% SC</i> granted to M/s Corteva Agriscience India Pvt. Ltd., u/s 9(3).
	RC deliberated the agenda and approved.
9.57	Packaging endorsement for additional bulk packing in the certificate of registration of <i>Picoxystrobin 7.05% + Propiconazole 11.71% w/w SC</i>, granted to M/s Corteva Agriscience India private Limited, u/s 9(3).
	RC deliberated the agenda and approved.
9.58	Packaging endorsement for additional bulk packing in the certificate of registration of <i>Picoxystrobin 22.52% w/w SC</i>, granted to M/s Corteva Agriscience India private Limited, u/s 9(3).
	RC deliberated the agenda and approved.

9.59	Packaging endorsement for additional packing in the certificate of registration of <i>Kasugamycin 5% + Copper Oxchloride 45% WP</i>, granted to <i>M/sDhanukaAgritech Limited</i>, u/s 9(3).
	RC deliberated the agenda and approved.
9.60	Packaging endorsement for additional packing in the certificate of registration of <i>Transfluthrin 0.08% w/w Aerosol</i>, granted to <i>M/s Godrej Consumers Product Limited</i>, u/s 9(3).
	RC deliberated the agenda and approved.
9.61	Packaging endorsement for additional packing of capacity 15ml in the certificate of registration of <i>Cyenopyrafen 30% w/w SC</i>, , granted to <i>M/sInsecticides (India) Limited</i>, u/s 9(3).
	RC deliberated the agenda and approved.
9.62	Packaging endorsement of alternate/additional packing u/s 9(4).
	RC deliberated the agenda and approved as per Annexure 9.62.1 .
10.0	<u>MISCELLANEOUS ITEMS</u>
10.1	Consideration of application for enhancement of shelf life under section 9(4).
	RC deliberated the agenda and approved as per Annexure – 10.1.1 .
10.2	Comments of the stakeholders against prohibition of use of Streptomycin + Tetracycline.
	RC deliberated the agenda and decided to seek comments from ICMR on this matter considering the products being responsible for antimicrobialresistance.RC further directed the concerned expert to put up the comments of the ICMR to the RC meeting.
10.3	Protocol on toxicity (acute, chronic, reproductive) to earthworm by picoxystaobin and its metabolites in different soil varieties for the fulfillment of condition of earthworm toxicity study for post registration of Picoxystrobin 22.52% and Picoxystrobin technical 93.0% min. u/s 9(3).
	RC deliberated the agenda and the approved the protocol (Annexure 10.3.1) with minor corrections which must be incorporated by the applicant in the protocol. The corrections are as follows:- 1. On page number 11 in point 8.2.7 the last test item concentration is mentioned as 7.1 mg. It should be 7.2 mg as per the factor of 2 per concentration. 2. In point number 13 on Reporting- A certificate/undertaking of type of soil being used for the study is to be obtained from ICAR-NBSS & LUP (National Bureau of <i>Soil</i> Survey & Land Use Planning).
10.4	Follow up action of 425th RC meeting vide agenda item no. 10.13 (M/s T. Stanes& company Ltd., Paecilomyceslilacinus 1.5% LF, Strain PL—1, Accession No. MTCC 5175).

	RC deliberated the agenda and directed the concerned experts to bring complete agenda in the next RC meeting.
10.5	Request received from M/s JU agri Sciences Pvt. Ltd., to grant permission for initiation of Bio-efficacy trails for label expansion of Imazethapyr 10% SL on non-GM (Genetically Modified) herbicide tolerant wheat crop.
	RC deliberated the agenda and directed the applicant to submit a Protocol for generation of Bio-efficacy data on non-GM (Genetically Modified) herbicide tolerant wheat crop for consideration of the RC.
10.6	Representation received from M/s Bayer CropScience Ltd., for re-consideration of decision taken in 411th RC meeting w.r.t closure of application for grant of registration of Glyphosate potassium salt 46% SL for use in transgenic cotton and corn crop under import category u/s 9(3).
	RC deliberated the agenda and upheld its earlier decision taken in the 411 th RC vide agenda item no.6.6.
10.7	Request for priority scrutiny for Drone label extension.
	RC deliberated the agenda and considering the national requirement on adoption of new tools, RC decided that all applications received for use of Drone for label expansion (already registered formulation) be scrutinized on priority giving a separate que under label expansion category and such applications received till date be scrutinized and put up to the next RC.
10.8	Surrender of registration certificate in respect of prohibited insecticides (pesticides) by company/firms in compliance of registration committee decision vide agenda item no. 10.12 in 426th meeting.
	Noted.
10.9	List of registration surrendered by the companies/firms w.e.f. 25.01.2021 to 22.02.2022.
	Noted
10.10	Consideration of an application of M/s Bayer CropSciences Ltd., for coded product BCS-CZ37679 200 g/l SC for RTT purpose.
	RC deliberated the agenda and approved for import of sample quantity of 40 liters of BCS-CZ37679 200g/l SC coded product from the overseas manufacturer and supplier: M/s Bayer AG, Germany for RTT purpose.
10.11	Consideration of an application of M/s Bayer CropSciences Ltd., for coded product BCS-DG96153 100 g/l SC for RTT purpose.
	RC deliberated the agenda and approved for import of sample quantity of 40 liters of BCS-DG96153 100g/l SC coded product from the overseas manufacturer and supplier: M/s Bayer AG, Germany for RTT purpose.
10.12	Application of bio-pesticides for rejection applied for grant of registration for indigenous manufacturing u/s 9(3).
	RC deliberated the agenda and agreed for rejection of application(Annexure 10.12.1).
10.13	Representation from M/s IPL Biologicals Ltd., to modify product specified of already registered products.

	RC deliberated the agenda and decided to seek clarification on already registered products. The applicant should be invited for making a presentation in the next RC meeting.
10.14	Consideration of an application of M/s NACL Industries Ltd., for grant of registration of Pyrazosulfuron technical 98% w/w min. u/s 9(3) technical import (TI)
	RC deliberated the case and directed to bring complete agenda from all the disciplines in next RC meeting.
10.15	Rejection of F. No. 11289-F/9(3)/2019.
	The case was deliberated and observed that the Analytical Test Report of the product of M/s Coromandal International Ltd., F. No. 11289-F/9(3)/2019 has been received from Central Insecticides Laboratory as Non-Conforming to the product specification in AI test requirement, hence approved for rejection.
10.16	Follow up action of RC decision taken in 436th meeting agenda item no. 10.19 of 436th meeting regarding grant of registration for indigenous manufacture of Petroleum Derived spray oil (PDSO).
	The agenda was deliberated in details and observed the facts put up by the Sectt. of CIB&RC stating that an application of Hindustan Petroleum Corporation Ltd has been approved for PDSO with naphthanic content on minimum base, whereas RC in its 436 th meeting decided uniformly to approve naphthanic content on maximum base as a policy decision. Therefore, the RC decided to approve the change in naphthanic content on maximum basis, accordingly; that applicant may be asked submit revised Form-I giving the naphthanic content on maximum basis and get corrected the CR & L/L simultaneously. RC further decided to recall the original CR from the applicant for endorsing the above changes.
10.17	Verification of manufacturing address of pesticides registration application of M/s Shunong Chemical Pvt. Ltd.
	The RC deliberated the agenda in details and considering the decision taken in the 435 th RC (Agenda item no. 8.12) it was also decided not to process the applications of the said applicant applied vide computer sr No. 185132 & 185510. It was further decided that a show cause notice shall be issued to the applicant for violating RC decisions. Furthermore, it was decided that the issue of ownership of manufacturing address shall be dealt according to the recommendations of the Sub-Committee constituted vide agenda item no. 9.3, as and when received.
10.18	Request for import of coded product PIX 2012 by M/s Jivagro Ltd., for RTT purpose.
	RC deliberated the agenda and approved import of sample quantity (160 L) of Coded product (PIX 2012) by M/s Jivagro Ltd for RTT purpose.
10.19	Request for import of coded product NORDOX 75 WG by M/s Indofil Industries Ltd., for RTT purpose.
	RC deliberated the agenda and approved import of sample quantity (23 kgs) of Coded product (NORDOX 75 WG) by M/s Indofil Industries Ltd., for RTT purpose.
10.20	Follow up action of Bio-pesticides guidelines.
	RC deliberated the agenda and asked the sub-committee to submit its report/final recommendations in the next RC meeting after considering suggestions received from the stake holders.
10.21	Follow up action of decision of 435th RC meeting of M/s IndogulfCropsciences Ltd., for grant of registration for technical import of Abamectin technical 92% w/w min. u/s 9(3) TI new source.

	RC deliberated the agenda and directed Secretariate to bring facts on impurities and also in light of earlier decision in 381 RC and 365 RC decisions.
10.22	Revival of application for label expansion of Imidacloprid 48% FS on groundnut.
	RC deliberated the agenda and approved for the revival of application (8790-END/2017) for label expansion of Imidacloprid 48% FS on groundnut.
10.23	Revival of application for label expansion of Spirotetramat 15.31% w/w OD on cotton.
	RC deliberated the agenda and approved for the revival of application (8395-END/2017 and 8460-END/2017) for label expansion of Spirotetramat 15.31% w/w OD on cotton.
10.24	Consideration of study protocol on bioefficacy and surface persistence evaluation of Imidacloprid 21% + Beta cyfluthrin 10.5% SC (Temprid) against stored product pests in warehouse conditions form M/s Bayer CropScience Ltd.
	RC deliberated the agenda and approved the study protocol on bio-efficacy of insecticides against stored grain insect pests under warehouse conditions (Annexure 10.24.1).
10.25	Follow up action of 436th RC agenda item no. 10.12 M/s National Horticulture Research and Development Foundation (NHRDF) for registration of Nuclear polyhedrosis virus of spodopetralitura 0.5% AS (NPV).
	RC deliberated the agenda and asked the applicant to submit the reply for the deficiencies raised by the Bio-efficacy expert.
10.26	Follow up action w.r.t. consideration of request for transfer of one CR of Thiram technical 95% w/w min. for indigenous manufacture from M/s Sun Pesticides Pvt. Ltd., to M/s Central Insecticides and Fertilizers.
	RC perused the agenda and observed that the applicant had submitted a clarification and affidavit in terms of the previous RC decision. RC decided that the contents of the Affidavit requires to be verified from the State Department of Agriculture being the Competent Authority under the Insecticides Act, 1968 and Rules 1971 with respect to the grant of manufacturing license and other allied issues. RC desired that the APPA & Secretary, CIB&RC may take appropriate steps to get it verified by a team deputed at Secretariat level.
10.27	Request from M/s Biotech International Ltd., for correction in the minutes of 429th and 434th RC meeting.
	The agenda was deliberated and RC observed that sample drawl and testing is a statutory requirement, which shall be completed by the notified inspectors, analyst and laboratory. In instant case APPA & Secretary, CIB&RC should depute a team to draw a sample as per statutory requirement for testing and ATR be put up to the committee for further decision.
10.28	Drawl of in-process sample from manufacturing premises/laboratory.
	The agenda was deliberated in detail and it was observed that the applicant is a subsidiary company of the inventor of the molecule and already registered in India as a legitimate source of Import of the product. The RC took the cognizance of the facts submitted through legalized affidavit for sharing manpower and laboratory equipment for time being and decided to approve the request in exception as it is a subsidiary company of inventor and already registered source of import. A team may be deputed to draw the sample from the premises proposed by the applicant.
10.29	List of free sale certificate for ex-post facto approval.
	RC deliberated the agenda and approved as per Annexure-10.29.1 .

10.30	Closing of the application of packaging endorsement.
	RC deliberated the agenda and approved the closure of the packaging endorsement application u/s 9(4) of M/s Crop Life Sciences vide F. No. 12012-END/2020 for Emamectin Benzoate 1.9% EC.
10.31	Request for minor corrections w.r.t. to inadvertent typographical error in minutes of 431st and 435th RC meeting.
	RC perused the agenda and approved the proposed corrections.
10.32	Request of opinion regarding import of ethylene ripener (small sachet) containing ethephon as fruit ripener email from Custom official.
	RC deliberated the agenda and noted that already RC is considering the suggestion received on draft guidelines/data requirement proposed for registration of new formulation indigenous manufacture for post-harvest (fruit ripening only) of already registered molecule u/s 9(3) at agenda item no. 3.2 of 437 th RC meeting. So, the Custom authorities may be informed by Secretariat of CIB&RC about the stand of the RC on registration requirement of the product i.e. Ethephon.
10.33	Follow up action of 429th RC meeting of agenda no. 10.21 and 434th RC meeting of agenda no. 10.5 for testing larvicidal potency of Bacillus thuringiensis var israelensis (serotype H-14) (Strain ISBTI) 2021 B- 17).
	<p>RC deliberated the agenda and decided the following-</p> <ol style="list-style-type: none"> 1. RC approved the ICMR-VCRC for testing larvicidal potency of Bacillus thuringiensis var israelensis (serotype H-14) (Strain ISBTI) 2021 B- 17). 2. The applicant shall deposit the requisite fee i.e., Rs 10,000/- for Potency test directly in the account of ICMR-VCRC, Pudducherry. 3. Two samples of same batch of 500 gm/ml each along with copy of the Fee receipt shall be submitted to Central Insecticides Laboratory, Faridabad for PRV purpose by the applicant. 4. One sample of Bacillus thuringiensis var israelensis (serotype H-14) for testing of parameters as per product specification except Potency test shall be carried out by Central Insecticides Laboratory, Faridabad. 5. The second sample shall be dispatched to the ICMR-VCRC, Pudducherry for testing larvicidal potency of Bacillus thuringiensis var israelensis (serotype H-14) (Strain ISBTI) 2021 B- 17) by CIL within one week after receipt of sample. 6. The VCRC shall provide a test report to CIL within 30 days from the date of receipt of the sample. 7. Once report received by CIL, the same shall be forwarded to the Sectt. of CIB&RC within three days. <p>A Public notice will also be issued for information to the stakeholders. ICMR-VCRC may be informed accordingly.</p>
10.34	Clearance of import consignment of imported pesticides from the Department of Customs.
	The RC deliberated the agenda in details and approved the certain changes in the policy adopted in 350 th RC amended in 366 th & 367 th . It was also decided that this policy may be sent to DA&FW for approval, hence after may be communicated to the CBDT/Department of Customs for effective implementations. The revised policy is attached at Annexure-10.34.1

10.35	Status of 9(3) chemical certificate pending for issuance under different category.
	RC noted the progress and appreciated the efforts made by the Sectt.
10.36	Fast track registration for pesticides molecules.
	RC deliberated the agenda and observed that the decision taken under agenda item no. 3.1 will be applicable to this also.
10.37	Closure of an application of M/s ISK Biosciences India Pvt. Ltd., for grant of registration for formulation import without registration of technical of Pyriofenone 18% SC w/v applied u/s 9(3) FI-WRT.
	RC deliberated the agenda and decided to close the file.
10.38	Closure of an application of M/s ISK Biosciences India Pvt. Ltd., for grant of registration for formulation import without registration of technical of Flazasulfuron 10% WP applied u/s 9(3) FI-WRT.
	RC deliberated the agenda and decided to close the file.
10.39	Consideration of applications/representations received for import permits of multiuse molecules for non-insecticidal use.
	RC deliberated the agenda and approved as per Annexure-10.39.1
10.40	Regarding grant of four months time for complete evaluation of application of M/s ADAMA India Pvt. Ltd.
	RC deliberated the agenda and allowed 4 months time period as requested by the expert for evaluation and examination of F.NO.7821-FI/9(3)/2016. The file containing all the data will be uploaded online by the applicant as per the norms of RC. Thereafter, the Toxicology Expert will thoroughly examine and evaluate, and subsequently the complete agenda will be put up to the RC for consideration.
10.41	Consideration of label claim expansion of <i>Flupyradifuron</i> and <i>Spirotetramat</i> against key insect pests of tea on fast track basis.
	RC deliberated the agenda and approved for the consideration of label expansion of Flupyradifuron and Spirotetramat against key insect pests of tea on priority basis on requested by the Tea Board, Kolkata.
10.42	Application for the import of sample quantity of 40 litres of <i>BCS-DG96153 160 g/l + Triafamone 100 g/l SC</i> coded product for RTT purpose of M/s Bayer CropScience Limited.
	RC deliberated the agenda and approved for import of sample quantity of 40 liters of BCS-DG96153 160 g/l + Triafamone 100 g/l SC coded product from the overseas manufacturer and supplier: Bayer AG, Germany for RTT purpose.
10.43	Application for the import of sample quantity of 40 litres of <i>BCS-DG96153 40 g/l + Triafamone 25 g/l SC</i> coded product for RTT purpose of M/s Bayer CropScience Limited.
	RC deliberated the agenda and approved for import of sample quantity of 40 liters of BCS-DG96153 40 g/l + Triafamone 25 g/l SC coded product from the overseas manufacturer and supplier: Bayer AG, Germany for RTT purpose.
10.44	Application for the import of sample quantity of 40 litres of <i>BCS-DG96153 160 g/l + Triafamone 160 g/l SC</i> coded product for RTT purpose of M/s Bayer CropScience Limited

	RC deliberated the agenda and approved for import of sample quantity of 40 liters of BCS-DG96153 160 g/l + Triafamone 160 g/l SC coded product from the overseas manufacturer and supplier: Bayer AG, Germany for RTT purpose.
10.45	Surrender of registration certificate of Fipronil 5% SC and Fipronil 2.92% EC by M/s BASF India Ltd.,
	Noted.
10.46	Surrender of registration certificate in respect of prohibited insecticides (pesticides) by companies/firms in compliance of registration committee decision vide agenda item no. 10.12 in 426th RC meeting.
	Noted.
10.47	Request to register suitable agrochemicals for Apple scab disease on top priority
	RC observed that a communication is received from the Principal Secretary Agriculture, J&K through Secretary DA&FW, Govt. of India wherein problem of apple scab in apple growing states was raised for seeking a suitable solution by ensuring availability of effective plant protection chemicals. RC deliberated in detail and decided to allow fast track scrutiny of TIM applications of the approved molecules on apple scab and directed the Sectt. of CIB&RC to ensure scrutiny of TIM cases so as to have minimum two registrant of approved molecules available under TIM category for promoting “Make in India” and AtmaNirbhar Bharat policy of Government of India.
10.48	Follow up action on the report of sub-committee on production, sale and use of Streptomycin sulphate 9% + Tetracyclin hydrochloride 1%.
	RC deliberated the agenda suggested to issue a public notice for generating the MRL data by manufacturers of the product. They may be advised to contact to the Network Coordinator, AINP on Pesticide residues, ICAR, IARI, New Delhi for completing formalities etc. for data generation so that data can be submitted to FSSAI for MRL fixation in time bound manner. These registrant should contact the above address for completing formalities and initiate data generation within 60 days period from the date of uploading the Public Notice on the website.
10.49	Compliance of the order dated 24.03.2022 passed by the Hon’ble Appellate Authority in appeal no. 13 of 2021 filed by M/s Shogun Organics Ltd., vs CIB&RC.
	Noted for compliance. RC further decided to call the applicant for making presentation in the next RC meeting and RC directs the concerned expert to bring complete agenda in terms of the order of the Hon’ble Appellate Authority.
10.50	Compliance of the order dated 14.03.2022 passed by the Hon’ble Appellate Authority in Revision No. 11 of 2021 filed by M/s KansalNerolac Paints Ltd., vs CIB&RC.
	Noted for compliance. RC further decided to call the applicant for making presentation in the next RC meeting. RC also directed the concerned expert to bring complete agenda in terms of the order of the Hon’ble Appellate Authority.
10.51	Follow up action of an agenda item no. 10.25 of 436th meeting regarding FIR lodged in fake consent matter.
	RC deliberated the agenda and directed the concerned expert to examine the facts thoroughly and put up in next RC meeting.

11.0	Any Other item
11.1	Court case SCA no 16769 of 2021 M.s CCFI and others vs UOI and others filed at Hon'ble High court of Gujarat at Ahmedabad.
	<p>RC was appraised of the above court case wherein the Petitioners had inter-alia prayed for the following reliefs</p> <ol style="list-style-type: none"> a. Direction may be issued to register technical simultaneously with the grant of registration of the formulation. b. Direction may be issued to consider the representations dated 25.03.2021, 31.05.2021 and 20.07.2021 filed the petitioners and passed the reasoned order in respect of the same. <p>RC recalled that earlier a sub-committee was constituted in 424th RC Meeting and later in 425th RC Meeting this sub-committee was given responsibility for examination of all such issues raised by industry/ Pesticides Associations. In view of the above court case the RC in supersession with all earlier decision decided to request the Plant Protection Advisor to act as Chairman of the sub-committee along with the Dr. Vandana Seth, JD(Chem.), Shri Subhash Chand, JD(Chem.) as members and Mrs. Sneha Potdar, DD(Chem.) as member secretary to examine the issues raised by the petitioners and submit its recommendations expeditiously preferably within the period of one month before the RC for an appropriate decision. RC further directs the group to comply with the principles of natural justice and provide an opportunity of being heard to the petitioners before submitting its recommendations to the RC.</p>

Annexure - 3.1.1

Minutes of Meeting of Sub-Committee constituted by RC in its 434th meeting held on 30.11.2021 on the issue of deriving criteria of declaring any pesticides molecule as a new pesticide.

The RC committee in its 434th meeting held on 30.11.2021 deliberating an agenda on consideration of criteria for declaring any molecules to be considered as a new molecule constituted a Sub-Committee under the Chairmanship of Dr. Ravi Prakash, PPA. The committee comprises the following members:

1. Dr. S. C. Dubey, ADG (PP) ICAR - Member
2. Dr. K.W. Deshkar, DD(Ento), CIB&RC - Member
3. Sh. Subhash Chand, JD(Chem), CIB&RC - Member Secretary

TOR of the Sub-Committee shall is as under:

“The Sub-Committee shall frame the criteria of declaring any pesticides molecule as a new pesticide after due deliberation with the stake holders.”

A. Agenda point: “The Sub-Committee shall frame the criteria of declaring any pesticides molecule as a new pesticide after due deliberation with the stake holders.”

Accordingly, the first online meeting with stake holders (Pesticides Associations representatives) was convened on 11.01.2022 at 14.00 hrs under the chairmanship of Dr. Ravi Prakash. The list of the participant is attached as Annexure-I.

Dr. Ravi Prakash, PPA & Member, RC welcomed the participants. He gave a brief idea and importance of the TOR in reference to its legality and needs in opening new horizons. In opening remarks, he emphasized on the needs of the farmers at this hour for more production with limited land availability and pest problems prevailing in India. It was also said that India needs more production to make the food available to the larger population of world in the present scenario. He asked the Member Secretary to start the proceedings of the meeting. The meeting was started with a brief PPT by the representative, CCFI on the subject summarizing the various decisions already taken by the RC on the issue. Dr. Majumdar stressed that there is no provision in the IA, 1968 for defining the word “New Molecule”.

The representative of CLI fervently opposed the idea of defining the definition for New Molecule. He stressed that there is no need for such kind of exercise as various committee has already discussed the same issue and gave recommendations on the issue. He asked the Sub-Committee for the reasons of genesis of the issue and its needs at this hour.

The representative of FICCI said that newer and safer molecules are the need of the hour. He further added that the process of pesticides registration should be accelerated as per the time schedule elaborated in the IA, 1968. The Govt. should create infrastructure in an appropriate ration so that the question of priority doesn't arise.

The representative of PMFAI emphatically welcomed the initiative of the RC, to derive the definition of new Molecule. He said that it should be keep in mind that discarded molecules shall not take entry into our Country through this route. Only new chemistry should be given importance for the benefit of the farmers.

Most of the participants from the Pesticide Industry raised the doubts on the new initiative of the RC to define the new molecules and wanted to know the genesis and motives behind the process. Dr. Ravi Prakash, PPA decided to ask Sh. Subhash Chand, Member Secretary to come up with a detailed power point presentation on the above subject summarizing factual position & global facts on new molecules specially the status of WHO, FAO or FDA about the new molecule in agrochemicals.

The meeting was ended with thanks to the chair.

Modification in TOR:

The RC in its meeting on 11.02.2022 while discussing on the finalization of various guidelines framed under the Chairmanship of Dr. Shandhya Kulshreshtha decided to modify the Terms of Reference (TOR) of above said Sub-Committee constituted under the Chairmanship of Dr. Ravi Prakash, PPA. Dr. S.K. Malhotra, Chairman RC and other members decided that the following TOR shall also be assigned to the above said committee:

“To suggest the modalities also to attract newer, safer molecules under “Make in India” initiative, in a statutory manner”.

This task shall be in addition to earlier assigned TOR.

The second online meeting of Sub-Committee with stake holders was convened on 14th February 2022 at 11.00 hours. The list of the participant is annexed as Annexure-II.

Hon'ble Chairman of the Sub-Committee Dr. Ravi Prakash welcomed all the participants and asked the Member Secretary to start the proceeding of the meeting. As directed the Member Secretary presented the power point presentation giving complete factual position and various decisions taken by the RC on the issue of New Molecule. It was presented that the issue goes back to 2010 where the Govt. of India constituted a committee under the Chairmanship of Dr. C.D. Mayee, Chairman, ASRB, New Delhi alongwith Dr. A.K. Dixit, Head (Agricultural Chemicals), IARI, New Delhi and Dr. P.S. Chandurkar, PPA to study and review the work process at CIB&RC. The committee gave a general recommendation about the definition of new molecule in agrochemicals. The definition proposed by the committee is appended as under:

“The definition of a new molecule needed to be coined and the committee proposed that all those products registered outside India after January 1995 but not yet registered in India shall be treated as a new molecules and shall be eligible under formulation registration. However, that molecules should have not been discarded or rejected/ banned for use by any other country; it

will not be allowed as new molecule/ formulation”.

The matter was deliberated in various RC meetings. After detailed discussions and suggestions from the industry and other stake holder RC decided to agree that there is no need for the definition of new molecules, but RC adopted the parameter of five years to incentivize those molecules which are introduced into country within 5 years or at par with other countries globally.

Furthermore, it was also presented that the Mrs. Satwant Reddy committee also deliberated the same issue and gave a definition of new molecules. The same is as under:

“A chemical compound which contains an active ingredient or formulation of such an ingredient that has not been previously approved in India irrespective of its registration and use in any other country.”

It was further explained that as such there could not be found any reference of definition by WHO, FAO or FDA of new molecules in agrochemicals. However, the same has been derived in reference to drugs by the FDA in “Manual of policies and procedures center for drug evaluation and research” document no. MAPP 5018.2”. The same is as under:

- New Chemical Entity (NCE):
- New Molecular Entity (NME):
- Active Ingredient:
- Active Moiety:

At the end of the presentation a draft definition was proposed. The same is under:

“A molecule not registered in India yet and shall not be banned/restricted in any other countries shall be treated as New Molecule.”

The presentation was appreciated by all the participants profusely for providing comprehensive chronological account of the various facets of New Molecule discussed at RC and DAC&FW.

CCFI representative expressed their appreciation of the concern shown by Registration Committee regarding the necessity of effective control of new invasive insect pests, pathogens etc. posing a grave problem to food production, for which a Sub-committee was constituted by RC in its 434th Meeting held on 30th November 2021 to “Frame criteria of declaring any pesticide molecule (chemical) as a new pesticide after due deliberations with the stakeholders”.

He continued to express that we wish to point out that there is no provision to define a “New Molecule” in the Insecticides Act 1968, CCFI would still like to concur with the decision of the Registration Committee taken at its 345th meeting held on 24.02.2014 that “A molecule, which is applied for grant of registration in India within 5 years of its registration anywhere in the world, may be considered as a ‘New Molecule’”.

Representatives from Crop life submitted that CLI position remain same that new Molecule is the one which is being introduced first time to country in line with Dr. Satwant Reddy Committee report.

Representative of PMFAI stated that New Molecule makes specific reference to grant priority and fast-track registration of new active ingredient which is not registered in India to manage the key pests and new emerging pests (outbreak) in the country to help farmers and proposed that it should be approved as a policy matter. He further stated that Definition of “New molecule” is not required. The existing definition for new molecule - if introduced in the country for the first time within 5 years of commercialization anywhere in the world is good enough and to be accepted. Further, the priority and fast track registration may be granted to any molecules and formulation products after creating additional man power (expertise) and facilities within the CIB&RC legal time frame of 18 months. There is no need to crave another definition of new molecule. The registration of molecules should have priority through fast track in national emergencies such as (a) new pest outbreak (b) pest resistance/resurgence, etc.

Govt. in past allowed fast track registration of (1) sulfosulfuron, clodinafop and fenoxaprop-ethyl in wheat for the management of Phalaris minor, which developed resistance to isoproturon on the basis of mode of action of pesticide which is important in pesticide resistance management.

bioefficacy of newly introduced active ingredient vis-à-vis existing molecules against key and new emerging pests.

Thereafter, unanimously it was decided that there is no need to derive a new definition of New Molecules as the definition already exist and the same shall be legalized through the gazette Notification in IR 1971 under chapter 1, as many amendments have already been done. The Committee endorsed the earlier definition approved in 345th RC as under:

“A molecule, which is applied for grant of registration in India within 5 years of its registration anywhere in the world, may be considered as a ‘New Molecule’”.

B. Agenda point: To suggest the modalities also to attract newer, safer molecules under “Make in India” initiative, in a statutory manner:

The agenda was deliberated at length and all the participants were of the opinion that the data requirement under various guidelines shall not be relaxed further in any given situation as the safety of human being is of utmost important. The Member Secretary suggested that can we grant the Registration of Technical and Formulation of pesticides under “Make in India” initiative U/S 9(3B) with commercialization without relaxation in data. It was emphasized that as Joint Parliament Committee recommendations, fixation of National MRL of pesticides on used crop is mandatory before selling into market.

Dr. Ravi Prakash, PPA and all participants appreciated the idea and unanimously agreed to idea with a suggestion that we should not agree to Codex MRL into this category. All the data needed for fixation of national MRL must be generated and submitted by the applicant so that risk can be evaluated and safety can be ensured. Dr. S.C. Dubey, ADG(PP) stressed that the safety shall not be compromised through relaxation of data, as administrative loss can be recovered but loss to human being safety cannot be recovered. He further suggested that as Accelerated Storage data is being accepted by the RC but on the parameters mandatory for fixation of national MRL no published information shall be accepted, only data shall be accepted.

Recommendation of the Sub-Committee:

1. The definition already exists and the same may be considered for priority registration of pesticides, if any. The Committee endorsed the earlier definition of new molecule approved in 345th RC as under:

“A molecule, which is applied for grant of registration in India within 5 years of its registration anywhere in the world, may be considered as a ‘New Molecule’”.

2. Registration of the molecules on priority basis under fast track category will be given in special circumstances as (a) New pest outbreak (b) Pest resistance/resurgence (c) Probability of new pest incursion from neighboring country (d) Requirement for effective pest management of the existing pests etc. The criteria for considering any application under this category shall be on the basis of following conditions without compromising biosafety aspects:
 - a. The molecule proved to be highly effective against the pests outside of the country and has not been introduced in India.
 - b. The pesticides have a new mode of action against targeted pests.
 - c. Serious pest outbreaks and available label claim
 - d. Bio-efficacy of newly introduced active ingredient vis-à-vis existing molecules against key and new emerging pests
 - e. Resistance and resurgence of insect pests/diseases and weeds in key crops in the country as well as in overseas to be considered while generating data for label expansion in granting priority.

- f.** National priority to address the problems of national importance.
- 3.** That the Registration of Technical and Formulation of pesticides under “Make in India” initiative U/S 9(3B) with commercialization for Technical Indigenous Manufacturing and Formulation Indigenous Manufacturing shall be permitted. No relaxation shall be allowed in submission of data required for fixation of MRL as the data requirement for fixation of national MRL is mandatory as per direction of Joint Parliamentary Committee.
 - 4.** For fixation of national MRL, minimum required data to be submitted by the applicant mandatorily at time of registration u/s 9(3B) TIM/FIM while submitting the application. Appropriate guidelines for this purpose can be framed.
 - 5.** Desirous applicant/industry must obtain certificate of registration under TIM/FIM category only to avail the benefit of point no. 3.
 - 6.** Additional man power (expertise) and facilities within the CIB&RC is required for effective implementation of priority and fast track registration so as to comply with the legal time frame of 18 months.
 - 7.** Production linked based incentive (PLI) shall also be provided to the TIM/FIM manufacturers.
 - 8.** PLI should be introduced for the basic raw material manufacturers in pesticides to promote export and hamper import.

Annexure 3.2.1

Guidelines/data requirement for Post-Harvest Use of Ethephon

Discipline	Proposed Guideline
Legal	I. Copy of BOD Resolution/ Affidavit / partnership deed. {notarized}
	II. Affidavit for Chemical composition on NJSP (Notarized)
	III. Certificate as per category of industry/ Manufacturing license (notarized)
	IV. PAN No. (notarized)
	V. Incorporation Certificate (Notarized)
	VI. Proof of ownership of industry plot
	VII. Proof of Source of Technical to be used in formulation is duly registered. (In case of indigenous manufacture/import-Reference of RC meeting in which it was approved). {Only deemed registration status without issuance of Certificate of registration shall not be considered}.
	VIII. Letter of consent, duly legalized from Indian Embassy / High Commission / Consulate in the Country of origin (Applicable in case of 9(4) TI/FI Applications)
	IX. Copy of 9(38) Registration certificate, if relevant.
Chemistry	I. Chemical composition of formulation.
	II. Chemical identity of technical and adjuvants
	III. Physico-chemical properties of technical and adjuvants
	IV. Specification of the product and Method of analysis
	V. Analytical Test report
	VI. Data on rate of release/application
	VII. Shelf life claim & data
	VIII. Process of manufacture, Step-wise manufacturing process and flow sheet diagram of process of manufacture
	IX. Information about raw material used and their source of supply
	X. The applicant should provide sample alongwith ref./analytical standard for pre-registration verification along with Specification, Method of analysis, Chromatograms etc.
	XI. Methodology for residue estimation as per BIS format

	XII. Source of supply of technical: The technical should be registered in India for use in country and proof of supply that the formulated product has been manufactured using the particular technical only for consent provided	
	XIII. Form-I, Labels/Leaflets and copy of RTT permit, if relevant.	
	XIV. ETP certificate, if applicable	
Bio-efficacy & Residues	1. Data on bio-effectiveness.	For label claim of controlled atmospheric conditions data on 1 and 2 to be submitted for three repeated trials(same temperature and relative humidity). Or For label claim of ambient atmospheric condition data to be submitted form three repeated trials Of different locations.
	2. Adverse effect on post-harvest crop produce, if any(phytotoxicity, change in appearance and flavor etc.)	
	3. Residue and persistence at different interval (immediately after treatment start from 0 hours till BDL or acceptable level) in post-harvest crop produce.	For label claim of Controlled atmospheric conditions (same temperature and relative humidity) data to be submitted for three repeated trails. Or For label claim of ambient atmospheric condition data to be submitted form three repeated trials of different locations.
	4. Registration status of formulation in other countries	Required
	5. MRL Performa and label leaflets	Required
	6. Label claims as per product Bio-efficacy : Information as per latest Gazette Notification issued by the Government of India.	
Toxicity	I. Acute Oral toxicity in rat	
	II. Acute dermal toxicity	
	III. Acute inhalation toxicity	

	IV. Primary skin irritation in rabbit
	V. Irritation to mucous membrane in Rabbit
	VI. Skin sensitization test
	VII. Observation in man if the concentration is lower and WP in place of EC etc., data may not be required (NR type of formulation is such i.e. as per decision of 318th RC held on 27.04.2011)
	VIII. Toxicity to birds (One species only)
	IX. Medical data
	Note: If the formulation is more toxic than its technical, then the toxicity data on sub-acute oral rat, sub-acute dermal, sub-acute inhalation, neurotoxicity, sub-acute oral dog (Any peer reviewed published data/information for sub-acute oral dog only as approved in 343 and 344 RC meeting) will be acceptable.
Packaging	<p>I. Labels and leaflets as per-1971 existing norms</p> <ol style="list-style-type: none"> a. For size 250 ml/gm & below b. For 500 ml/gm & above. <p>II. Label to contents</p> <ol style="list-style-type: none"> a. Detailed Chemical composition b. Purpose for import/manufacture c. Antidote d. Toxicity triangle e. Cautionary statement f. Brief direction concerning usages g. Restriction if any <p>III. Leaflets to contain:</p> <ol style="list-style-type: none"> a. Detailed chemical composition leaflets accompanying small labels (upto 250mg/ml size container) b. Introductory para about the pesticide

	<ul style="list-style-type: none"> c. Detailed directions concerning usages d. Time of application e. Application equipment f. Waiting period g. Symptoms of Poisoning h. First-aid measures i. Antidote and treatment j. Restriction, if any k. Instruction for storage l. Information regarding disposal of used packages
	<p>IV. Type of packaging (packing material + compatibility with content)</p>
	<p>V. Manner of packing</p> <ul style="list-style-type: none"> a. Specification for primary package b. Specification for secondary packaging c. Specification for transport packaging d. Manner of labeling e. Performance of container during storage stability test f. Transport worthiness Test

Total No. of Applications: 5667

Satisfactory: 5627

Under Clarification: 33

Rejected: 7

Reason(s) of Rejection:

- a. Incomplete submission of required documents i.e. valid manufacturing license, valid SSI, list of products manufactured in the last two years. BOD/ Incorporation certificate (in case of Pvt. &Ltd. Company).
- b. Incomplete submission of online Form-I and hardcopy of Form-I, i.e wrong name of applicant and authorized person, wrong address of manufacturing site, wrong entry of product in online Form-I and hard copy, incorrect/unapproved source of import (in case of FI and TI category. Insitu Production in case of ALP.
- c. Submission of application under wrong category.
- d. Other issue related to SSI /Manufacturing license
- e. CR already issued/MRL not fixed/ banned product.
- f. Non submission of required affidavit/Incorrect/ incomplete affidavit.
- g. Invalid Consent.

2. QUALITY ASSURANCE

The Quality Assurance Unit (QAU) of Eurofins Advinus limited, Bengaluru 560 058, India, will inspect the study, review the raw data, the draft and final reports. Findings of all inspections will be reported to the Management and to the Study Director. Inspection dates and reporting dates will be reflected in the Quality Assurance Statement in the report. The Quality Assurance Unit has reviewed the study plan and will receive a copy thereof.

3. STUDY COMPLIANCE

The study will be performed in compliance with the following:

- OECD Principles of Good Laboratory Practice [C(97)186/Final]
- Mutually agreed study plan and the Standard Operating Procedures.

4. GUIDELINE

The study will be conducted under consideration of the following international accepted guidance and guideline documents:

- OECD, Guideline for testing of chemicals 222. Earthworm Reproduction Test. Adopted: 29 July 2016.
- BBA Guideline (Part VI-2-3, 1994: Effects of Plant Protection Products on Earthworms in the Field, Kula et al.).
- ISO guidance document (ISO 11268-3, 2014. "Soil Quality - Effects of Pollutants on Earthworms –Part 3: Guidance on the Determination of Effects in Field Situations".
- Technical recommendations for the update of the ISO Earthworm Field Test Guideline (ISO 11268-3, Kula et al., date for submission March 2006).

5. AMENDMENT AND DEVIATION PROCEDURES

This study plan may be amended or subject to alterations. The amendment to the approved study plan will be put in writing and realized only after written consent is obtained from the study sponsor. If immediate action is necessary, verbal agreement with the sponsor will be confirmed as soon as possible by study plan amendment.

Any unintended change(s) to study plan will be documented in the raw data and mentioned in the report as deviation(s). Deviations will be communicated to the Sponsor in due time after they appear.

6. SAFETY PRECAUTIONS

Gloves and goggles (if required) will be used in addition to protective body garments and shoes to ensure personnel safety and to avoid inhalation and skin contact with the test item. In case of eye contact, the eye will be washed thoroughly with water and medical treatment will be sought. In case of skin contact, skin will be washed with soap and lukewarm water.

7. OBJECTIVE

The purpose of the study is to verify that the test organisms do not respond in an adverse way to exposure of the test item at a concentration of intended use. For this, the possible effects of the test item on mortality and reproduction of the earthworm *Eisenia fetida* (Annelida: Lumbricidae) by dermal and alimentary uptake will be assessed after an adult exposure period of four weeks and the effects for reproduction will be assessed after additional four weeks to count the number of offspring present in the soil. For this purpose, the test item will be mixed with natural soils (preferably 2 or 3 different soil local abundant types) at different concentrations of the test item. The NOEC and LOEC for mortality and reproduction will be determined and the EC_x will be calculated, if possible. In order to provide profound comparability to the tested natural soils, separate control replicates with artificial soil as per guideline will be set up.

8. MATERIALS AND METHODS

8.1 MATERIALS

8.1.1 TEST ITEM INFORMATION

(as provided by the Sponsor)

Batch supplied by	:	Corteva Agriscience
Test Item	:	Picoxystrobin 22.52% w/w SC (250 g/ L)
CAS No.	:	Details will be updated later
Chemical name (IUPAC)	:	Details will be updated later
Physical appearance	:	Details will be updated later
Purity as per CoA	:	Details will be updated later
Batch No.	:	Details will be updated later
Manufactured date	:	Details will be updated later
Retest date	:	Details will be updated later
Recommended storage condition	:	Details will be updated later

Notes: a) Date of receipt of test item at test facility: Details will be updated later
 b) Test Item code by test facility: Details will be updated later

8.1.2 IDENTITY OF THE TEST ITEM

The characterization detail of the test item is provided by the study sponsor by certificate of analysis (CoA) and Test Item Data Sheet (TIDS) with the details of the quality system adopted- others. These documents will be included in the raw data. The CoA of the test item will be included in the report. The responsibility for the correct identity and purity of the test item rests with the sponsor. The test item will not be characterized at the test facility.

8.1.3 JUSTIFICATION FOR THE SELECTION OF TEST SYSTEM

Earthworms have been adopted as a standard organism for Eco toxicological testing. Characters of earthworm such as large size, specific behaviour and high biomass makes most suitable animals for use as key bio indicator organisms for testing the toxicity of chemicals in soil. The susceptibility of *Eisenia fetida* to chemicals resembles that of true soil-

inhabiting species and it has a short life cycle. It is very prolific, each worm producing two to five cocoons per week from each of which emerge several worms. It is available commercially and can be bred readily in a wide range of organic waste materials.

8.1.4 TEST SYSTEM

Earthworm of the species *Eisenia fetida* will be used as the test system as it is a recommended earthworm species in the guideline.

As for this specific test, natural abundant Indian soils will be used to demonstrate acceptable risk of the test item according to label use when exposed to earthworms in fields. By using small compartments of the respective soil, ideally several different types within one testing regime, realistic interaction of the test item with locally abundant soils can be demonstrated. Further on, the division into smaller compartments with known numbers of adult worms allows better handling and defined exposure under best controlled conditions.

As for exposure itself, incorporation of the test item into soil directly by mixing reflects a much more worst-case situation than overspray as it would be done in field situations, as the test item gets equally distributed in all soil layers of each replicate and in direct contact with introduced worms, whereas overspray under real life field conditions is limited to most upper soil layer and also partly restricted by present crop / canopy layer present during overspray. By demonstrating acceptable risk under worst case exposure setup for worms and natural abundant soils, the use of the test item under realistic field conditions can then be accepted when applied as per label use and recommendations.

8.1.5 SOURCE

The earthworm, *Eisenia fetida* bred at test facility will be used for the test.

Ecotoxicology Laboratory
Eurofins Advinus limited
Bengaluru 560 058, India

8.1.6 TEST SUBSTRATE

The test will be conducted including untreated replicates with artificial soil, as recommended by the guideline, as well as with different natural soils sampled at a respective field site. As for the natural soils, untreated as well as treated soil replicates in ascending order will be included in this test.

Following ingredients will be used to prepare artificial soil:

- a) Sphagnum peat (pH will be in the range of 5.5 to 6, with no visible plant remains, finely ground and dried to measured moisture content)
- b) Kaolin clay (kaolinite content preferably above 30 %)
- c) Industrial sand (fine sand will be dominant with more than 50 % of the particles between 50 to 200 microns)

Before starting the test, the dry test substrate will be moistened by adding enough deionized water to obtain approximately half of the final water content, that being 40% to 60% of the maximum water holding capacity (corresponding to $50 \pm 10\%$ moisture dry mass). Artificial soil will be prepared by mixing together 5 % of sphagnum peat, 20 % of kaolin clay and 75 % commercial or industrial sand on dry soil basis (m/m). The pH of the test substrate will be in the range of 5.5 to 6.5. Calcium carbonate (0.3 to 1%) will be used to adjust initial pH of the test substrate, if required. Proportionate usage of sand will be reduced, if calcium carbonate is used. The source of these materials will be documented in the raw data and presented in the report.

The natural soils used for testing will be collected from respective field sites, and there will be also untreated natural soils included in testing, in order to achieve comparable results with the untreated artificial soil treatment, and to verify if the natural soils used for testing are suitable and accepted for earthworms as natural habitat without causing adverse effects independent from test item treatments. Possible effects detected in the test item treated soils will be compared to untreated control performance of each of the respective natural soils.

Range finding test (preliminary test) will be carried out in five naturally occurring soil types - Alluvial Soil, Black Cotton Soil, Red Soil, Mountainous or Forest Soils and Peaty Soil.

The suitability of the soil and achieving the test validity criteria should also be demonstrated by acceptable performance of earthworms in respective replicates of untreated natural soils.

Natural soils will be sourced from ICAR-National Bureau of Soil Survey and Land Use Planning (NBSS&LUP), Bengaluru. Details of site of collection and characteristics of soil (electrical conductivity, texture analysis, organic content) etc., will be provided in the report.

Depending on outcome and performance of the earthworms in the range finding setup, the three most suitable soil types will then be used for definitive testing.

The amount of CaCO_3 required will depend on the components of the soil substrate including food and should be determined by measurements of soil sub-samples immediately before the test. pH is measured in a mixed sample

in a 1 M solution of potassium chloride (KCl) or a 0.01 M solution of calcium chloride (CaCl₂).

The substrate should have a crumbly structure to enable the earthworms to penetrate substrate cavities.

8.1.7 GROWTH CHAMBER, TEST CONTAINERS AND OTHER EQUIPMENT

Growth chamber (incubator or climate room) is fitted with cool white fluorescent tube lights for uniform illumination and which can maintain a temperature between 18 and 22 °C.

High Density Polyethylene (HDPE) having cross sectional area of approximately 200 cm² of about one to two litres capacity will be used, so that a moist substrate depth of at least 5-6 cm will be achieved. Perforated transparent lids or plastic films will be used to cover the test containers in order to permit gaseous exchange between the substrate and the atmosphere and access to light.

All the major equipment used in the study will be documented in the raw data and presented in the report.

8.2 Methods

8.2.1 Outline of the Method

Adult worms will be exposed to a range of concentrations of the test item mixed with artificial soil. The mortality and growth effects of the test item on the adult earthworms will be examined after 4 weeks of exposure. The adults will be then removed from the soil and effects on reproduction will be assessed after a further 4 weeks by counting the number of offspring present in the soil. The reproductive output of the worms exposed to the test item will be compared to that of the control(s) in order to determine the no observed effect concentration (NOEC)/ EC_x (e.g. EC₁₀, EC₂₀, EC₅₀).

8.2.2 Test Item Solubility

The test item will be tested for its solubility before initiation of the treatment to check for suitability of formulation in the test. Initially test item will be mixed with deionized water. It will be ensured to reach a homogenous dispersion of the respective formulation tested before incorporating it into soil.

8.2.3 Breeding and Maintenance of Earthworms

The earthworms used for testing will be maintained and/or bred in cow manure in polypropylene or plastic trays. Cow manure having a pH value of approximately 6 to 7 (adjusted with calcium carbonate, if required), a

low ionic conductivity (less than 6 μS or 0.5 % salt concentration) and will not be contaminated excessively with ammonia or animal urine. The substrate will be moist but not too wet. The breeding trays will be placed in a climatic chamber maintained at a temperature between $20 \pm 2^\circ\text{C}$.

8.2.4 Selection of Earthworms for Testing and Acclimatization

Earthworms which are from synchronized culture with a relatively homogenous age structure will be selected for test. The age of the earthworms will be more than two months and less than one year and with a well-developed clitellum at the start of the test will be used. The age of the worms in a test group will not differ by more than 4 weeks.

The selected earthworms will be acclimatized in the growth chamber at least for 24 ± 1 hour. Earthworms will be fed with oatmeal or cow manure (whichever used during test) during acclimatization. Details of food used will be recorded in the raw data and provided in the report.

After the acclimatization period, the earthworms will be individually weighed. Earthworms will be washed prior to weighing using deionized water and excess water will be removed by placing worms on filter paper. Earthworms with body weight between 300 and 600 mg will be selected for testing. Earthworms will be assigned randomly to the different test units and treatments.

8.2.5 Exposure to Treatment

Duration of the test	8 weeks
Temperature	between 18 and 22 $^\circ\text{C}$
Light source	continuous cool-white fluorescent light
Light period	controlled light-dark cycles (preferably 16 hours light and 8 hours dark)
Light intensity	between 400 and 800 Lux

Test containers will be positioned randomly in growth chamber and these positions will be re-randomized weekly.

8.2.6 Feeding of Earthworm

Cow manure will be used as food during the test. The cow manure will be air-dried, finely ground and pasteurized before its use.

During test, food will be provided one day after adding the earthworms and applying the test item to the artificial soil. Thereafter food will be provided once a week (± 2 day) during the first 4-week test. Approximately 5 g of food will be spread on the soil surface of each container and moistened with deionized water. If food remains uneaten, the ration will be reduced to avoid fungal growth or moulding.

During second 4-week test period, food will be provided to each test container only once at the start of test and food will not be provided to the test containers during the remaining test period.

8.2.7 Selection of Test Item Concentration and Treatment for Definitive Test

The selection of the test item concentrations will be based on available literature data or on toxicity data of previous studies, as well as based on the intended field rates for the product to be used in India.

Based on the preliminary test of natural performance of the earthworm in the different natural soil, the three major types of natural soil for definitive testing will be chosen.

The test item concentrations for the definitive test are chosen to be as follows:

0.056, 0.11, 0.22, 0.45, 0.9, 1.8, 3.6 and 7.1 mg Formulation/kg dry soil, corresponding to 0.0125, 0.025, 0.05, 0.1, 0.2, 0.4, 0.8 and 1.6 mg active ingredient/kg dry soil (based on a nominal a.i.-content of 22.52 %) were selected for the definitive test along with the natural soil control.

Test item treatment groups will be included for each natural soil type at same test concentrations.

Along with these an artificial soil control and a reference substance, Carbendazim at 3 mg a.i./kg dry soil will be included in the test.

Each test item treated groups will have four replicates; control and reference substance groups will have eight replicates. Each group will have 20 earthworms per replicate.

The here given concentration reflects to intended field rates of 9.375, 18.75, 37.5, 75, 150, 300, 600 and 1200 mg active ingredient/ha, based on a applied volume of 500 L/ha. The chosen range as such covers the most concentrated and worst-case exposure scenario as per label use. It also tests concentrations up to eightfold intended field rates as per label, in order to demonstrate worst case exposure beyond appropriate and intended field use as per recommended label.

Preparation of Test Item Concentrations

Test item stock of 1 mg/mL will be prepared by mixing 1000 mg test item and making up to 1000 mL using deionized water in a volumetric flask.

To prepare test item concentrations of 0.056, 0.11, 0.22, 0.45, 0.9, 1.8, 3.6 and 7.1 mg Formulation/kg dry soil, 0.336, 0.66, 1.32, 2.7, 5.4, 10.8, 21.6 and 42.6 mL test item stock will be mixed with deionized water followed

by introduction into test substrate of about 6 kg and thoroughly mixed (if other amounts of test item spiked soil are required, the amounts of test item and dry artificial soil will be changed proportionately).

For control, required volume of deionized water will be mixed thoroughly in 6 kg of test substrate on dry soil basis.

Required volume of deionized water will be selected to achieve a final moisture content of 40% - 60% of the maximum water holding capacity which corresponds to $50 \pm 10\%$ moisture dry mass. The moisture content of the test medium was determined based on dry soil during the test.

An equivalent weight of test medium corresponding to 1200 g dry test substrate will be used for each replicate and earthworms will be placed on the surface of test medium. Test vessels with earthworms will be maintained in the test conditions throughout the test period.

8.2.9 Observations

As part of sublethal measurements, body weights of introduced adult earthworms will be recorded at the start of the test and at the end of first 4-weeks (day 28). All living earthworms will be washed with deionized water and excess water will be removed by placing them briefly on filter paper prior to weighing. Body weight is seen as an important parameter on reproduction success.

After the addition of the earthworm into the test containers the weight of test container (minus their covers) will be recorded and used for monitoring the soil moisture content throughout the test. Once a week (± 2 days), test containers will be re-weighed (minus their covers) and any loss in the water content is replenished with deionized water.

At the end of first 4-weeks after beginning of the test (day 28), the test medium will be spread on a stainless-steel plate and number of surviving earthworms, mortality and any unusual behavior examination will be recorded as part of the potential acute toxicity evaluation. Earthworms will be observed for pathological and behavioral symptoms like, discoloration, stiffening of the body, decrease in size, dermal ooze, partial rupturing of the body and limited response to touch. Any earthworm which is not found during the observation will be counted as dead. Since, it is to be assumed that such earthworms have died and decomposed prior to the assessment. Earthworms that do not respond to a gentle mechanical stimulus to the anterior end with a glass rod will be considered as dead.

After the examination on end of first 4-weeks after beginning of the test (day 28), all adult earthworms will be removed from the test container and will be refilled with the same test medium (that may contain any cocoons that have been produced).

At the end of the second 4-week period (day 56), the test medium will be spread on a stainless-steel plate and number of juveniles hatched from the cocoons in the test soil and cocoon numbers will be recorded as part of the potential chronic and reproductive toxicity assessment.

Soil moisture content will be determined (by weighting of the containers) at least at the beginning and at the end of the test from all the test groups. Soil pH will be determined in a sample of control soil and a sample of each test concentration soil.

Moisture Content and pH

Moisture content of the soil components or artificial soil will be determined by drying sub samples at 100 to 110 °C and re-weighing after drying of the samples.

Clean and dry containers will be weighed (W1) and required quantity of sample will be taken in the container and weighed (W2). Sample is dried in the oven at a temperature of 105 ± 5 °C (for a minimum period of 6 h). Final mass (W3) of the container with dried sample will be recorded after the container cooled down.

Calculation

The percent of moisture content (water) is calculated as below:

$$\% \text{ Moisture content} = \frac{W2 - W3}{W3 - W1} \times 100$$

Where,

%M = Percent moisture content

W1 = Mass of empty container

W2 = Mass of container and wet soil

W3 = Mass of container and dry soil (after oven drying).

The pH of the test medium (5 g test medium in 25 mL 0.01 M CaCl₂) was determined during the test.

Maximum Water Holding Capacity of the Soil

Defined quantity of the test substrate will be loaded into the Keen's cup (with filter paper in inner chamber). The Keen's cup will be gradually submerged until the water level is above the top of soil. The Keen's cup will be left in the water for three hours. The soil sample will be allowed to drain by placing the Keen's cup onto a filter paper until water draining on to the filter paper will be ceased.

The Keen's cup will be then weighed followed by drying to constant mass at 105 ± 5 °C. The water holding capacity (WHC) will be calculated as follows:

$$\text{WHC (in \% of dry mass)} = \frac{S - T - D}{D} \times 100$$

Where,

S = Keen's cup with filter paper + water-saturated substrate

T = Tare (mass of Keen's cup with filter paper)

D = Dry mass of substrate

Environmental conditions

Temperature will be recorded continuously from a surrogate replicate, with maximum 1 h sampling interval. Resulting data or graph will be presented in the final report.

Illumination will be measured at least once a week, at 5 random places of incubation area. Results with uniformity assessment will be provided in final report.

9. DISPOSAL OF TEST SYSTEM

All surviving test earthworms will be euthanized and disposed at the end of first 4-week; juveniles and cocoons at the end of second 4-week of the test.

10. DATA PRESENTATION

Data will be summarized in a tabular form showing for each group, the number of earthworms at the start of the test, number of earthworms surviving, pathological and behavioral symptoms of the earthworms on end of first 4-week; number of cocoons and juveniles produced per group at the end of second 4-week exposure after the beginning of test. The percentage mortality on first 4-week after the beginning of test will be plotted against concentration, wherever applicable.

11. STATISTICAL ANALYSIS

The LC₁₀, LC₂₀ and LC₅₀ value for adult earthworm mortality (after first four week) with 95 % fiducial limits, and the equation for the dose-response curve will be determined by Probit analysis by the method of Finney (1971) or logistic regression method, if applicable. Where the data obtained are inadequate for the use of standard methods of calculating the LC₁₀, LC₂₀ and LC₅₀, the highest tested concentration causing no mortality and the lowest tested concentration producing 100 % mortality as an approximation for the LC₅₀ (this being considered the geometric mean of these two concentrations) or moving averages or the trimmed Spearman-Kärber method will be used. Irrespective of the method adopted, if mortality is noticed in control(s) the mortality data will be corrected.

Arithmetic mean and the standard deviation per treatment and per control for reproduction (fecundity) will be calculated. If required, the data will be subjected to ANOVA provided variance does not depend on the concentration. In this case, the single variances of control and treatments will be used.

For NOEC estimation, the statistical analysis of the experimental data will be carried out using the validated package in Excel and/or using licensed copies of SYSTAT Statistical package. The data will be tested for normality (Shapiro-Wilk test) and homogeneity of variances (Levene's test) within the group before performing a one-factor ANOVA modelling by treatment groups. Non-optimal (non-normal or heteroschedastic) data will be transformed, before ANOVA is performed. Comparison of means between treatment groups and control group will be done using Dunnett's test if the overall treatment, 'F' test is found to be significant. All analyses and comparisons will be evaluated at the 5% ($p < 0.05$) level.

To compute any ECx value, the per-treatment means are used for regression analysis (linear or non-linear), after an appropriate dose-response function has been obtained. For the growth of worms as a continuous response, ECx values can be estimated by using suitable regression analysis. Among suitable functions for quantal data (mortality/survival and number of offspring produced) are the normal sigmoid, logistic or Weibull functions, containing two to four parameters, some of which can also model hormetic responses. If a dose-response function was fitted by linear regression analysis a significant r^2 (coefficient of determination) and/or slope should be found with the regression analysis before estimating the ECx by inserting a value corresponding to x% of the control mean into the equation found by regression analysis. 95%-confidence limits are calculated according to Fieller.

Alternatively, the response is modelled as a percent or proportion of model parameter which is interpreted as the control mean response. In these cases, the normal (logistic, Weibull) sigmoid curve can often be easily fitted to the results using the probit regression procedure. In these cases the weighting function has to be adjusted for metric responses as given by Christensen. However, if hormesis has been observed, probit analysis should be replaced by a four-parameter logistic or Weibull function, fitted by a non-linear regression procedure. If a suitable dose-response function cannot be fitted to the data, use alternative methods to estimate the ECx, and its confidence limits, such as Moving Averages after Thompson and the Trimmed Spearman-Kärber procedure.

Based on the data, if these standard methods are not appropriate, other procedures may be used. All pertinent additional statistical information will be included in the final report.

The unit of expression will be mg/kg dry soil and mg active ingredient/kg dry soil.

12. CONDITIONS FOR THE VALIDITY OF THE TEST

For a test result to be considered valid the following criteria will be applied for control groups:

- Each replicate (containing 10 adults) to have produced ≥ 30 juveniles by the end of the test
- The coefficient of variation of reproduction to be $\leq 30\%$
- Adult mortality over the initial 4 weeks of the test to be $\leq 10\%$

Where a test fails to meet the above validity criteria then the test will be terminated. If test is continued a proper justification will be recorded and presented in the study report.

13. REPORTING

The final report will include, but not be limited to:

A descriptive title.

The name and address of the sponsor and the test facility along with the details of the study schedule.

List of scientists/professionals.

Test item

- identification data
- physical nature and where relevant, physicochemical properties

Test system

- species, scientific name, source of organisms and breeding conditions
- age, size (mass) range of test organisms

Test conditions

- preparation details for the test soil
- the maximum water holding capacity of the soil
- a description of the technique used to apply the test substance to the soil
- details of auxiliary substances used for administering the test substance
- description of the experimental design and procedure
- size of test containers and volume of test soil
- test conditions: light intensity, duration of light-dark cycles, temperature
- a description of the feeding regime, the type and amount of food used in the test, feeding dates
- pH and water content of the soil at the start and end of the test

- information on concentrations of the test item active ingredient in the test medium

Results

- adult mortality (%) in each test container at the end of the first 4 weeks of the test
- the total mass of adults at the beginning of the test in each test container
- changes in body weight of live adults (% of initial weight) in each test container after the first four weeks of the test
- the number of juveniles produced in each test container at the end of the test
- a description of obvious or pathological symptoms or distinct changes in behaviour
- the results obtained with the reference test substance
- the acute endpoints of the study, such as Lethal Concentration at x % adverse effects (LC_x, e.g. LC₅₀ or LC₁₀) as well as the reproductive endpoints, such as Effect Concentration at x % adverse effects (EC_x, e.g. EC₅₀, EC₁₀) will be stated in detail, if some of them are applicable with confidence intervals, and a graph of the fitted model used for its calculation all information and observations helpful for the interpretation of the results
- a plot of the dose-response-relationship
- the chronic and reproductive endpoints will be stated as No Observed Effect Concentration and Lowest Observed Effect Concentration (NOEC/LOEC), respectively, with details of statistical methods used to determination these values. NOEC is the highest tested concentration without statistically significant effects when compared to controls, whereas LOEC is the lowest tested concentration that shows statistically significant effects when compared to control
- the results applicable to each test container
- incidents in the course of the test which might have influenced the results
- List of main equipment used in the study

Discussion of the results.

Deviations from the study plan, if any.

A description of all circumstances if any, that may have affected the quality or integrity of the study.

The Quality Assurance Statement, signed by the Quality Assurance Unit.

The GLP Compliance Statement, signed by the Study Director.

The storage location of all raw data, the report, a sample of test item/substance and the archiving period.

GLP Certificate.

Note: If response from sponsor for finalization of draft report is not received within six months after sending draft report and in spite of repeated reminders, management could approve termination of study or finalization of report and archiving. In such an event, any subsequent requests from sponsor for modifications, correction or addition to the final report will be subject to report amendment at additional cost.

14. ARCHIVING

On completion of the study the documents to be archived at the Study Sponsor will be transferred to:

EU Archivist at Corteva Agriscience
 Regulatory Innovation Centre
 3B Park Square, Milton Park, Abingdon
 Oxon, OX14 4RN, UK

who is then responsible for forwarding the study data package to:

Restore Datacare PLC
 234 Heyford Park, Upper Heyford
 Oxfordshire OX25 5HA, UK

At the end of the archiving period copies of data and materials related to the study archived at the test facility / test site archive will be disposed of without the prior written consent of the Study Sponsor.

15. STUDY PLAN DISTRIBUTION

The final study plan will be distributed as follows:

Test Facility: One signed study plan in original (Copy No. 1/1).
 Sponsor: An electronic copy of study plan Copy No. 1/1 in the searchable PDF format.

16. REPORT DISTRIBUTION

The final report (original copies) will be distributed as follows:
 Test Facility: One signed final report in original (Copy No. 1/1).
 Sponsor: One signed final report in original (Copy No. 1/1) and an electronic copy in the searchable PDF format.

Spray application on gunny bags and Spray application on walls of warehouses for stored grain pest control

Layout of locations:

Four states across India will be selected to represent different agroclimatic conditions in the country. At each location, 5 shades/ warehouses (comprising of 14 chambers) 7 each under Food Corporation of India and Indian Grain Storage Management & Research Institute (IGMRI) will be selected for conducting field trials. Each chamber will have the capacity to accommodate between 12 -15 stacks and each stack will have at least 1800 to 3600 gunny bags of stored grains. (Refer table 2a, below for layout plan of various locations in different states of India).

Table – 2a: Layout plan for trials of test product against stored grain pests at various FCI / IGMRI warehouse locations in India

Locations	Chambers at each location	No. of trial sets in each Chamber	No. of stacks in each Chamber	No. of treatments in each Chamber	No. of replicates under each treatment
Hapur	14 (5 for spray on gunny bags + 9 for spray on walls)	2 (season 1 + season 2) of same test product	12-15	1 (either test product @ 2 ml, 4 ml, 6 ml, or market product @ 10 ml, or untreated control)	6 in case of Spray on gunny bags. 5 in case of Spray on walls
Pune	14 (5 for spray on gunny bags + 9 for spray on walls)	2 sets of same test product	12-15	1 (either test product @ 2 ml, 4 ml, 6 ml, or market product @ 10 ml, or untreated control)	6 in case of Spray on gunny bags. 5 in case of Spray on walls
Mumbai	14 (5 for spray on gunny bags + 9 for spray on walls)	2 sets of same test product	12-15	1 (either test product @ 2 ml, 4 ml, 6 ml, or market product @ 10 ml, or untreated control)	6 in case of Spray on gunny bags. 5 in case of Spray on walls
Chandigarh	14 (5 for spray on gunny bags + 9 for spray on walls)	2 (season 1 + season 2) of same test product	12-15	1 (either test product @ 2 ml, 4 ml, 6 ml, or market product @ 10 ml, or untreated control)	6 in case of Spray on gunny bags. 5 in case of Spray on walls
Kolkata	14 (5 for spray on gunny bags + 9 for spray on walls)	2 sets of same test product	12-15	1 (either test product @ 2 ml, 4 ml, 6 ml, or market product @ 10 ml, or untreated control)	6 in case of Spray on gunny bags. 5 in case of Spray on walls

A. Spray Application on Gunny Bags -

Methodology

1. Siteselection:

Five separate chambers with at least 12 stacks in each of the chamber which are well-separated from each other (each stack should contain approximately 1800 to 3600 gunny bags of stored grain) will be selected at each location (i.e., at Hapur, Mumbai, Pune, Chandigarh, and Kolkata). The selected stacks will be already fumigated with Aluminum Phosphide at the recommended dose rate (@ 9 gm/ MT of grain). Thus, there will be total 5 chambers comprising of total 60 stacks at each location (Refer table 2 b for layout plan of various treatments and replicates). These chambers would be preferably well-isolated so that cross contamination/ migration of stored grain insects from the adjacent chambers (which will create a bias in efficacy evaluation) will be avoided.

2. Pre-treatment monitoring

i. Trap counts (Infestation Assessment):

Pre-treatment monitoring of the stacks must be done after the fumigation of the stored grain. As the gunny bags of stored grain are subject to cover fumigation, it takes around 7 days to complete the process (including degassing which is the last step). The ingress of stored grain insects does not begin immediately after fumigation process. Glue traps (sticky traps) would be used for monitoring the insect population in each chamber. These traps should be fixed on the stacks only 72 hours (3 days) after degassing process in the warehouse.

The glue trap will be stuck to the gunny bags with the help of two-way tape at various spots so that they are well-spread across the stacks uniformly. Around 2 glue traps would be fixed on each side of the stack including the top flat portion of the stack which is horizontal (which means 5 surfaces x 2 glue traps = 10 glue traps/ stack) and each stack selected for treatment will bear 10 glue traps (which means 10 glue traps x 12 stacks in each chamber = 120 glue traps/chamber).

Glue traps will be collected back from the stacks only after 72 hours of their placement on gunny bags. These traps would be safely placed in collection jars (plastic jars of appropriate size) and dispatched to the FCI designated laboratory.

Recording observations: Traps with insects stuck on them will be subject to insect population count and the species count (Refer table 3).

ii. Grain sampling from gunny bags (Infestation Assessment):

Grain sampling from gunny bags would be done as per the standard procedure followed by FCI warehouses. Around 500 gm of grain sample would be collected 24 hours before spray application from designated stacks (planned by FCI) with the help of poker in a zig zag manner (W-shaped collection pattern from a stack of

gunny bags). Grain sampling of gunny bags for presence of insect pests will be done before treatment as well as after the spray treatment with insecticides.

Recording observations: The number of live or dead insects observed in each of the 500 gm sample collected from the stacks will be recorded (Refer table 4).

The threshold for insect infestation in the gunny bags is presence of less than 2 live insects (any stored grain insect pest) in 500 gm of each grain collection

iii. Grain sampling from gunny bags (Chemical Residue Analysis):

Grain sampling from gunny bags will not be done separately for chemical residue analysis (samples extracted for infestation assessment will be used for chemical analysis). After assessment for insect infestation, the collected samples will be packed in cloth bags (size sufficient to store 500 gm of grain) and would be dispatched to Food Safety Standards Authority of India (FSSAI) approved laboratory for chemical analysis of insecticide residues.

Recording observations: Report received from the laboratory would be used to record the outcomes for presence of residues. (Refer table 5).

3. Spray application:

Spray application of test product and market standard product would be done after collection and dispatch of glue traps (done during pre-treatment monitoring). Application on the stacks in individual chambers at each location should be done as per the layout plan mentioned in Table 2b.

The area of individual selected stacks (height, length, and width) to be treated should be measured before spray application. The area of the exposed surfaces (4 sides of the stacks and top flat portion of the stack) should be calculated as $(\text{height} \times \text{length}) \times 2 + (\text{height} \times \text{width}) \times 2 + (\text{length} \times \text{width})$ in terms of square meters (sq.mt.) (Refer diagram 1). Following the standard application rate of 30 ml of diluted solution/ sq.mt. of target surface for prophylactic treatment, the total requirement of insecticide solution should be calculated (e.g., if total area of stack is 100 sq.mt. then the requirement of insecticide solution to cover this area would be calculated as $100 \times 30 \text{ ml} = 3000 \text{ ml} = 3 \text{ lit.}$)

Spray solution should be made according to the dose rates mentioned in Table 1, Sr. No. 3. People doing spray application should use appropriate Personal Protective Equipment (PPE) during handling, measuring, mixing and application of insecticides/pesticides*.

(*Note: Diluted insecticide/ pesticide solution is in the liquid state and has a potential for skin absorption, thus contact of liquid solution should be avoided by all means)

Nozzle which is commonly used for spraying stacks in FCI chambers should be preferably used for spraying during trials. After fitting the nozzle to the spray lance, the discharge rate of the sprayer should be calculated by filling the sprayer with clean water alone and allowing the water to be sprayed in empty bucket for 1 minute (60 seconds). Water collected in this way should be transferred to the measuring

flask and the volume of water (ml) should be recorded. This procedure should be repeated for 3 times and an average of 3 readings should be calculated to find the average discharge rate of the sprayer for 1 -minute duration. Based on this information, the time required to cover the target area can be planned in such a way that deposition of desired amount of spray solution (i.e., 30 ml/ sq.mt.) and active ingredient (mg of a.i./ sq.mt.) on the total given area is successfully achieved. The equipment used for spraying would be the standard electrical motor operated sprayer of 100 lit. capacity (normally used for spray application during routine practice in FCI warehouses). In case, Power sprayers are not available at specific locations, they would be made available by FCI. Spray application should be preferably done during evening hours when most of the stored grain pests are active. Application done for different treatments (i.e., different dose rates of same test product/ formulation or different test products) should ideally be done by washing the sprayer before the change over to next treatment (Refer diagram 2).

4. Post-treatment monitoring:

A. Bio efficacy evaluation:

i. Sweeping collections: 1DAT

After 24 hours of spray application, the treated stacks of the warehouse chambers would be brushed down from 1 side (length x height) out of 4 sides to remove the insects laying on the gunny bags. The insects fallen on the floor (dead or alive) in this way would be swept and collected (with the help of broom) in a plastic jar of appropriate size. These jars would be properly labelled (indicating date of collection, correct treatment code, replicate, dose rate, etc.) and dispatched to laboratory for proper identification and insect counts. Sweeping collections done immediately after spray application will be regarded as bio efficacy.

Recording observations: the insect collection jars would be retained for 24 hours in the laboratory and the species of insects alive/ dead in the jars and number of insects of each species will be recorded (Refer table 6).

ii. Trap counts (Infestation Assessment): 3DAT

After spray application, the doors/ shutters of the warehouse chamber should be closed, and the stacks left undisturbed for next 24 hours. After 24 hours, new glue traps (sticky traps) would be used again for monitoring the insect population after spray treatment in each chamber. Again 10 glue traps would be stuck to each stack on the gunny bags with the help of 2-way tape (120 glue traps/ 12 stacks). These traps would be retained on gunny bags for 72 hours in each chamber after spray operation and would be collected back after 3 days of placement. These traps would be safely placed in collection jars (plastic jars of appropriate size) and dispatched to FCI designated laboratory for recording the trap count of insect population.

Recording observations: species of insect pest trapped on glue traps and number of insects of each species to be recorded (Refer table 7).

iii. Grain sampling from gunny bags (Infestation Assessment): 7DAT

Grain sampling from gunny bags would be done again at least 7 days after spray application (after trap count assessment) in the same manner as done before spray application.

Recording observations: The number of live or dead insects observed in each of the 500 g sample collected from the stacks will be recorded. Observations will be recorded as per the provided format (Refer table 8).

B. Persistence Evaluation:

i. Sweeping collections: W1, W2, W3, W4....

Sweeping collections done from a week onwards after spray application and continued at weekly intervals will be regarded as persistence. For persistence evaluation, the procedure would be same as bio efficacy evaluation, stacks of the sprayed warehouse chambers would be brushed down from 1 side (length x height) out of 4 sides at weekly intervals after spray application. The live/dead insects fallen on the floor would be swept and collected (with the help of broom) in a plastic jar of appropriate size. These jars would be properly labelled (indicating date of collection, correct treatment code, replicate, dose rate, etc.) and dispatched to laboratory for proper identification and dead insect counts. Sweeping collections of dead insects would be continued till the time when the collection of dead insects would decline below 20% from the first collection date.

Recording observations: the insect collection jars would be retained for 24 hours in the laboratory and the species of insects alive/ dead in the jars and number of insects of each species will be recorded (Refer table 9).

ii. Trap counts (Infestation Assessment): W1, W2, W3, W4....

For persistence evaluation, post-treatment monitoring of the stacks with glue traps must be done after every 7 days interval after insecticide spray application on stacks. The glue trap shall be stuck to the gunny bags with the help of two-way tape in the same manner done for pre-treatment monitoring.

Glue traps will be collected back from the stacks only after 72 hours of their placement on gunny bags. These traps would be safely placed in collection jars (plastic jars of appropriate size) and dispatched to the FCI designated laboratory.

Recording observations: Traps with insects stuck on them will be subject to insect population count and the species count (Refer table 10).

iii. Grain sampling from gunny bags: W2, W3, W4....

For persistence evaluation of grain samples, collection of grains from gunny bags would be done in the same way as was done for bio efficacy evaluation (pre-treatment and post-treatment monitoring). However, this sampling will be done at weekly intervals after post-treatment monitoring observations (i.e. 3 days after spray application). Around 500 gm of grain sample would be collected from each stack with the help of poker in a zigzag manner (W-shaped collection from gunny

bags) at weekly intervals. This collection would be continued till the date when more than 2 live insects (any stored grain insect pest) are collected in each 500 gm of grain collection. **Recording observations:** The number of live or dead insects observed in each of the 500 g sample collected from the stacks will be recorded. Observations will be recorded as per the provided format (Refer table 11).

iv. Grain collections for chemical analysis: W2,W4

Grain sampling from gunny bags will not be done separately for chemical residue analysis (samples extracted for infestation assessment at week 2 and week 4 in case of post-treatment monitoring will be used for chemical analysis). Grain samples of 500 gm collected at week 2 and week 4 from designated stacks will be packed in cloth bags marked with specific treatment no. stack no. replicate, etc. and would be dispatched to Food Safety Standards Authority of India (FSSAI) approved laboratory for chemical analysis of insecticide residues.

Report received from the laboratory would be assessed for presence of residues. If the residue analysis of week 2 samples does not indicate the presence of insecticide residues in the grain samples at tested dose rates, sample collection at 30 days interval for that dose rate would not be required (Refer table 12).

Diagram 1: Area calculation (height x length) x 2 + (height x width) x 2 + (width x length)

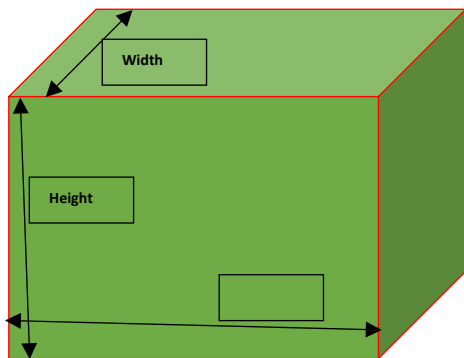

Diagram 2: Spray application coverage on stacks

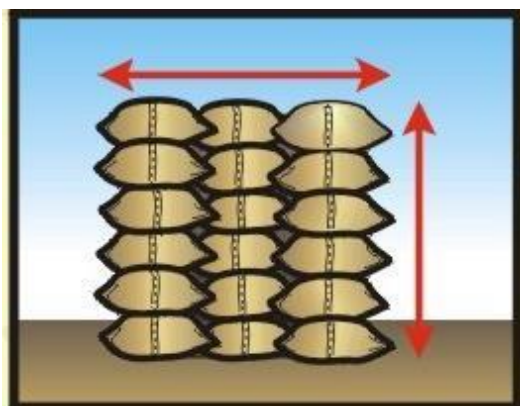

Table – 2b: Layout plan for spray application on stacks/ gunny bags

Warehouse/ Treatment split	Trial set	Stack No.	Repli cate (R)	Product to be applied	Dose rate	Application rate	Total area of stack	Total Solution applied based on stack area (lit.)

B. Spray Application on Warehouse Walls -

Methodology

1. Siteselection:

Nine separate chambers with at least 5 stacks or more (containing approximately 1800 to 3600 gunny bags of stored grain) which are well-spaced away from walls of warehouse will be selected at each location. The chambers selected for spray application on warehouse walls **should be separate from those chambers used for spray application on gunny bags/ stacks**. The stacks in selected chambers will be already fumigated with Aluminum Phosphide at the recommended dose rate (@9gm/MTofgrain). Thus, there will be total 9 chambers comprising of at least 5 or more stacks at each location (i.e., Hapur, Borivali, Pune, Chandigarh, and Kolkata) ([Refer table 13](#)). These chambers would be preferably well-isolated so that cross contamination/migration of stored grain insects from the adjacent chambers (which will create a bias in efficacy evaluation) will be avoided.

2. Pre-treatment monitoring:

i) Trap counts (Infestation Assessment):

Glue traps (sticky traps) would be used for monitoring the insect population in each chamber. These traps would be fixed with the help of 2-way tape on the walls at 3 different heights (1 foot, 3 foot and 5 foot) at various spots so that they are well-spread across each wall uniformly. Around 3 glue traps would be fixed at 3 heights on each of the four walls of the warehouse chamber 3 days prior to spray operation (thus there would be total 12 glue traps for 4 walls of each warehouse chamber).

Glue traps will be collected back from the walls after 72 hours of placement. These traps would be safely placed in collection jars (plastic jars of appropriate size) and dispatched to laboratory for recording the trap count of insect population and their identification.

Recording observations: species of insect pest trapped on glue traps and number of insects of each species to be recorded ([Refer table 14](#)).

3. Spray application:

Spray application of test product and market standard product would be done after collection and dispatch of glue traps. Spray application on the walls in individual chambers at each location should be done at the height of **15 foot (or till the height equivalent to the height of stack)** and it should be done as per the plan mentioned in [Table 13](#).

The area of individual selected walls (height and length) and floor (width and length) to be treated should be measured before spray application. The area of the wall and floor surfaces should be calculated (height x length in case of each wall) and (length x width in case of floor) in terms of square meters (sq.mt.). Following the standard application rate of 30 ml of diluted solution/ sq.mt. of target surface for prophylactic treatment, the total requirement of insecticide solution should be calculated (e.g., if

total area of a wall is 100 sq.mt. then the requirement of insecticide solution to cover this area would be calculated as 100 sq.mt. x 30 ml = 3000 ml= 3 lit.)

Spray solution should be made according to the dose rates mentioned in [Table 1, Sr. No. 3](#). People doing spray application should use proper Personal Protective Equipment (PPE) during handling, measuring, mixing and application of insecticides/pesticides*.

(*Note: Diluted insecticide/ pesticide solution is in the liquid state and has a potential for skin absorption, thus contact of liquid solution should be avoided by all means)

Nozzle which is used as common practice at FCI warehouses should be preferably used for spraying ([Flat fan nozzle is good for such operations](#)). After fitting the nozzle to the spray lance, the discharge rate of the sprayer should be calculated by filling the sprayer with clean water alone and allowing the water to be sprayed in empty bucket for 1 minute (60 seconds). Water collected in this way should be transferred to the measuring flask and the amount of water (ml) should be recorded. This procedure should be repeated for 3 times and an average of 3 readings should be calculated to find the average discharge rate of the sprayer for 1-minute duration. Based on this information, the time required to cover the target area can be planned in such a way that deposition of desired amount of spray solution (i.e., 30 ml/ sq.mt.) and active ingredient (mg of a.i./ sq.mt.) on the total given area is successfully achieved.

The equipment used for spraying would be the power sprayer of 100 lit. capacity (normally used for spray application during routine practice in FCI warehouses). In case, Power sprayers are not available at specific locations, they would be made available by FCI. Spray application can be done during morning hours and application done for different treatments (i.e., different dose rates of same test product/ formulation or different test products) should ideally be done by washing the sprayer before the change over to next treatment.

4. Post-treatment monitoring:

A. Bio efficacy evaluation:

i) *Sweeping collections (Post-Treatment): 1DAT:*

After 24 hours of spray application, the dead insects fallen on the floor would be swept and collected (with the help of broom) in a plastic jar of appropriate size. Sweeping collection should be done only along one wall of the chamber for each replicate. These jars would be properly labelled (indicating date of collection, correct treatment code, trial set, replicate, dose rate, etc.) and dispatched to laboratory for proper identification and dead insect counts.

Recording observations: The insect collection jars would be retained for 24 hours in the laboratory and the species of insects alive/ dead in the jars and number of insects of each species will be recorded ([Refer table 15](#)).

ii) Trap counts (Infestation Assessment): 3DAT:

After spray application, the doors/ shutters of the warehouse chamber should be closed, and the walls left undisturbed for next 24 hours. After 24 hours, new glue traps would be fixed again for monitoring the insect population after spray treatment in each chamber. Again around 3 glue traps would be fixed at 3 heights on each of the four walls of the warehouse chamber, a day after spray operation (thus there would be total 12 glue traps for 4 walls of each warehouse chamber). These traps would be retained in each chamber for 3 days and would be collected back after 72 hours of placement. The traps would be safely placed in collection jars (plastic jars of appropriate size) and dispatched to FCI designated laboratory for recording the trap count of insect population.

Recording observations: Species of insect pest trapped on glue traps and number of insects of each species to be recorded (Refer table 16).

5. Persistence Evaluation:**i) Sweeping collections (Post-Treatment): W1, W2, W3, W4....:**

For persistence evaluation, walls of the sprayed warehouse chambers will be used at weekly interval. The dead or live insects fallen on the floor would be swept and collected (with the help of broom) in a plastic jar of appropriate size. These jars would be properly labelled (indicating date of collection, correct treatment code, replicate, dose rate, etc.) and dispatched to laboratory for proper identification and insect counts. Sweeping collection should be done only along one wall of the chamber for each replicate and would be continued till the time when the collection of dead insects would decline below 20% from the first collection date.

Recording observations: The insect collection jars would be retained for 24 hours in the laboratory and the species of insects alive/ dead in the jars and number of insects of each species will be recorded (Refer table 17).

ii) Trap counts (Infestation Assessment): W1, W2, W3, W4....:

For persistence evaluation, walls of the sprayed warehouse chambers will be used at weekly interval. Every week, glue traps would be used for monitoring the insect population. Around 3 glue traps would be fixed at 3 heights on each of the four walls of the warehouse chamber (thus there would be total 12 glue traps for 4 walls of each warehouse chamber). These traps will be collected back after 3 days.

Recording observations: Traps with insects stuck on them will be subject to insect population count and the species count (Refer table 18).

Table – 13: Layout plan for spray application on walls of chamber

Warehouse/ Treatment split	Trial set	Wal l No.	Repl icat e(R)	Product to be applied	Dose rate	Applicat ion rate	Total area of wall [(L x H) in sq.mt.	Total Solution applied based on wall area (lit.)

Annexure 10.34.1

CENTRAL INSECTICIDES BOARD & REGISTRATION COMMITTEE

Check List for Customs in Case of Import of Pesticides

- A.** As insecticides, i.e. any substance included in the Schedule to the Insecticides Act, 1968 (displayed on the above mentioned website), or any preparation containing anyone or more thereof, require mandatory registration under Section 9 by the Registration Committee, constituted under Section 5, of the said Act for insecticidal use or an import permit, issued by the same Committee, for non-insecticidal use. Therefore, no insecticide should be allowed to be imported without a valid Certificate of Registration or an Import Permit, issued by the Secretary, Central Insecticides Board & Registration Committee under his signature and official seal.
- B.** The Certificate of Registration or the Import Permit should be checked with respect to date of validity, if any mentioned thereon. In case, it is not mentioned, such certificate or import permit shall be treated as a permanent document. In case, any date of validity is mentioned, the import should not be allowed on or after its expiry.
- C.** The Import should be allowed only if the insecticide is originating from the source of import, as mentioned in the Certificate of Registration. In case, the name of a supplier is also mentioned therein, the material should route only through the supplier and should not be allowed directly from the source of import. A list of approved sources of import of various insecticides is available on the website.
- D.** In case, there is any variation in the name or address of either the source of import or the supplier and the endorsement of such change has not been obtained by the registrant from the Secretary, Central Insecticides Board & Registration Committee before the import, such import should not be allowed.
- E.** The consignment should be accompanied by an invoice of that insecticide issued by the source of import. Even in case of routing the material through the supplier, the material is required to originate from the source of import, duly accompanied by an invoice issued only by the source of import. "If the supplier or the manufacturer of the pesticide (source of import) is the principal company or the subsidiary of the registrant of the Pesticide in India, invoice can be generated from either the manufacturer or the supplier providing the complete details of the source of import in the invoice including name and mailing address as approved by the committee along with Authorization letter from the manufacturer for supplying the material".
- F.** In case invoice is issued by the supplier, it is to be ensured that the material has to be originated from the original source of import approved by the RC along with authorizing

letter mentioning therein the batch number from the manufacturer for supplying the material.

- G.** In cases of Certificate of Registration issued for pesticides for Import for Export category, it is to be ensured that the entire quantity imported against that Certificate is Exported too (in case of conversion of technical grade material into a preparation thereof, the quantity should be matching in terms of technical grade).

- H.** In case of doubt, the material should not be released. Only on receiving confirmatory information from the Secretary, Central Insecticides Board & Registration Committee the consignment may be dealt with further.
