The applicant has made a request that they are facing difficulty in obtaining the manufacturing license from the State licensing authorities in absence of the endorsement letter from CIB&RC. The applicant has undertaken to submit the copy of the

	manufacturing license within a period of one month from the date of the endorsement letter. RC decided to approve the request of the applicant. RC directs the applicant to submit the copy of the manufacturing license so obtained from the State licensing authority within a period of one month failing which the RC shall be constrained to withdraw the above approval.
<b>10.4</b>	<b>Request for permission to allow State Government to issue manufacturing License (Endorsement of factory address application no. EN-49106/2024 approved in 458<sup>th</sup> RC meeting at Agenda item no. 9.45)</b>
	<p>RC deliberated the agenda and observed that the above case of factory address endorsement of the applicant M/s Indo US Biotech Limited was approved by the RC in its 460<sup>th</sup> meeting at Agenda item no. 9.45 but the same was inadvertently not reflected / missed in the minutes of the RC, however the same was mapped in the CROP system and accordingly the endorsement letter dated 24.09.2024 was issued to the applicant.</p> <p>RC also perused the request letter dated 26.11.2024 of the applicant wherein the applicant has informed that they are the holder of valid CRs which were issued in 431<sup>st</sup> RC meeting held on 10.09.2021. The applicant has also submitted that the Gujarat Pollution Control Board has not issued the CTO (consent to operate) certificate despite of no fault on the part of the applicant. <b>10.5</b>	<b>Clarification on inclusion of marketing agency in manufacturing license and issuing NOC for additional factory address</b>
	<p>RC perused the communication received from the state department of Karnataka inter-alia asking for a clarification regarding the endorsement of marketing agencies. The state government has quoted rule 20 of the Insecticides Rule which they have submitted that any alteration in the label and leaflets requires permission from the Registration Committee. RC deliberated the agenda in light of the provisions of the Insecticides Act, 1968 and Rules, 1971 and observed that the grant of licenses for manufacture, sale, transport, distribution etc. lies in the domain of the respective State Governments and RC also observed that any consequential changes w.r.t. the change in the marketing agencies may be made by the state government after due satisfaction to them. Further, any provision of the Act does not preclude the State authorities to carry out such amendments which does not substantially impact the conditions of the CR. Furthermore, the Rule 20 provides that any alteration of any inscription or mark, made on the container, label or wrapper of any insecticide may be made at the instance, direction or permission of the Registration Committee. In view of this Registration Committee hence permits the endorsement of the marketing agencies by the state government under the title “Marketed by” of the label as prescribed under the Insecticides Rules after due satisfaction to them following the prescribed procedure and abiding to rest of the conditions approved by the</p>

	RC for a pesticide. RC directed Secretariat of CIB&RC to communicate the same to concerned pesticides Associations.

	<p>In terms of the order dated 22.01.2025, this agenda was placed and apprised the RC about the chronology of the applications submitted by the applicant M/s. Om Agro Organics on the captioned subject. This case has brief history. The applicant M/s. Om Agro Organics had submitted an application for the registration of <i>Bacillus thuringiensis var. israelensis</i> 5.00% AS (strain VCRC B-17) against mosquito species and subsequently the case was considered by the Registration Committee in its 375th meeting held on 19.05.2017 and issued the registration certificate on 15.07.2017 for the registration of <i>Bacillus thuringiensis var. israelensis</i> 5.00% AS (strain VCRC B-17) against mosquito species <i>Anopheles</i>, <i>Aedes</i> and <i>Culex</i> sp with a shelf life of the product as 2 years. Later, the National Centre for Vector Borne Disease Control (NCVBDC), Ministry of Health and Family Welfare, Government of India, New Delhi submitted a request to the Secretariat of CIB&amp;RC for change in the dose of <i>Bacillus thuringiensis var. israelensis</i> formulation which did not pertain to the applicant rather it was related to some other applicant for a similar product and the same was placed in 391st RC meeting held on 10.08.2018 and RC deliberated the agenda in detail and decided that “change in label claim can be considered with a formal request from the applicants with requisite data and RC also directed Secretariat of CIB&amp;RC to intimate to the Ministry of Health and Family Welfare, accordingly”. The decision of 391st RC meeting was communicated to the NCVBDC and subsequently NCVBDC communicated to all the applicants including M/s. Om Agro Organics. Further, the request submitted by the applicant on 12.05.2019 was examined and it was observed that as required and mandated by the decision of 391st RC meeting no fresh data to substantiate its claim had been submitted by the applicant or any of the other registrants. Now, recently, the applicant has submitted a request dated 23.09.2023 along with new bio-efficacy data generated by ICMR-Vector Control Research Centre dated 16.08.2023 for correction in their label and leaflet. The request of the applicant was examined and the same was placed in 454th and 457th RC meetings held on 29.02.2024 and 26.06.2024, respectively whereupon RC deliberated the agenda in detail and decided to call the applicant for presentation. Subsequently, the applicant appeared and presented its views in the 458<sup>th</sup> RC meeting held on 14.08.2024 and requested for the endorsement of storage temperature and shelf-life. RC carefully examined the matter and directed the applicant to submit the application under label expansion category on CROP portal. In compliance with the 458<sup>th</sup> RC decision, the applicant has submitted a new label expansion application (Application No. EN-49902) on 19.08.2024.</p> <p>With the above background RC deliberated the agenda in detail and observed that certificate of registration along with label and leaflet in accordance to the data submitted by the applicant had already been issued for 10ml/m<sup>2</sup> for polluted water (Drain, cesspits, casuarina pit, disused well, Tyre holes, disused tyres) and 5ml/m<sup>2</sup> for clean water (Ponds, pool, paddy fields). The applicant has now approached with newly generated bio-efficacy data only against <i>Aedes</i> mosquito in pine apple plantation from ICMR-VCRC and the same is yet to be applied online on CROP Portal for label expansion. However, M/s Om Agro has applied online under endorsement category submitting temperature data ranging from 25 – 33 degrees for shelf-life study and effect of storage on larvicidal activity observed on <i>Culex</i> larvae. The study has been conducted for 18 months. RC observed the same and for want of detailed data in online application directed the secretariat of CIB&amp;RC to seek the clarification from applicant for</p>

	further necessary action. RC also directed the Secretariat of CIB&RC to place the copy of this decision before the Hon'ble High Court of Mumbai (Nagpur Bench) for its kind consideration.

<b>10.52</b>	<b>Follow up action an agenda item no. 10.37 of 460<sup>th</sup> RC meeting regarding the clarification required for the issue of certificate to the registration of <i>Bacillus thuringiensis var kurstaki</i> (serotype-H3a3b3c) 0.5% WP.</b>
	RC deliberated the agenda in detail and verified the previous registration of <i>Bacillus thuringiensis var kurstaki</i> (serotype-H3a3b3c) 0.5% WP. and considered the case.

<b>10.53</b>	<b>Chorology of the applications submitted by M/s Om Agro Organics for registration/modification of label claim of bio-pesticide <i>Bacillus thuringiensis</i> 5% AS.</b>
	Merged with the Agenda item 10.42
<b>10.54</b>	<b>Follow up agenda to agenda item 10.41 of 460<sup>th</sup> RC meeting on improvement/harmonization of the guidelines of registration.</b>
	RC directed Secretariat of CIB&RC to compile all the guidelines and bring in its next meeting
<b>11.0</b>	<b>Any Other item</b>
<b>11.1</b>	<b>Commercialization under 9(3b) of LLIN, PDSOs or any other chemical pesticide</b>
	RC observed that after the approval of RC the case is sent to DA&FW for the approval of commercialization for the chemical pesticides approved u/s 9(3b) of the Insecticides Act, 1968. RC also observed procedural delays in obtaining such approvals. RC further observed that extension of validity of such 9(3b) cases is considered and approved after examination of the technical progress made in the data generation. Hence, RC observed and decided that as there are no consequential effects the viability of the commercialization approval once obtained from the competent authority shall be considered as maintainable till the validity of the CR.
