Ltd, No.2 Wei Si Road, Jinchuannan District, Economy & Technology Development Zone, Hohhot City, China which is same source, mentioned in certificate of Registration and no endorsement given as per the affidavit submitted by applicant. The case is subjected to submission of original hard-copy Affidavit / ICAMA / Consent letter (Apostille/Legalized) with geo tagging details etc., whichever is applicable if already not submitted. |
| <b>9.8</b> | <b>Consideration of an application of M/s Mahamaya Lifesciences Limited for Extension of validity of source of Import of Glufosinate ammonium Technical-95% w/w min registered u/s 9(4) TI of Insecticide Act, 1968.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|            | RC deliberates the agenda and approved the case of M/s Mahamaya Lifesciences Limited for Extension of validity up to 26.05.2031 of source of Import of Glufosinate ammonium Technical-95% w/w min registered u/s 9(4) TI of Insecticide Act, 1968. The registered source of Import is M/s Lier chemical co. Ltd, Economic and Technical Development zone, Mianyang Sinchuan PR China-621000 which is same source, mentioned in certificate of Registration and no endorsement given as per the affidavit submitted by applicant. The case is subjected to submission of original hard-copy Affidavit / ICAMA / Consent letter (Apostille/Legalized) with geo tagging details etc., whichever is applicable if already not submitted.                        |
| <b>9.9</b> | <b>Follow up of application of M/s BR Agrotech LTD., for Endorsement of Change of Name and address of source of Import on the registration certificate of Imidacloprid Technical 94% w/w Min registered u/s 9(4) TI of Insecticide Act, 1968.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|            | RC deliberate the agenda and observed that the endorsement for additional source was denied as pr 469 <sup>th</sup> RC decision vide agenda no. 3.1 in case of the chemical composition of both the sources are not identical. In this case it is important to mention that change in the name and address of additional source of import is still not granted to any of the 9(3) registrant earlier. The purity of the both of the sources is different. Therefore, applicant                                                                                                                                                                                                                                                                              |

|             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| <b>10.2</b> | <b>Consideration and compliance of order dated 10.08.2026 passed by the Hon'ble Revisional Authority in Revision Petition No. 02 of 2026 filed by M/s Godrej Agrovat Ltd. Vs. CIB&amp;RC and M/s Best Crop Science Pvt. Ltd.</b>                                                                                                                                                                                                                           |
|             | RC perused the Order dated 10.08.2026 passed by the Hon'ble Revisional Authority wherein the matter has been remanded by the Hon'ble Revisional Authority for a limited review of the issues relating to the manufacturing process, impurity profile, chemical equivalence and the consequential                                                                                                                                                           |

safety implications arising therefrom. RC also perused the letter dated 13.08.2026 from M/s Godrej Agrovet Ltd.

The Committee was apprised that, in compliance with the directions of the Hon'ble Revisional Authority, the complete chemistry dossier and all documents available on record were re-examined. The Committee noted that the applicant had submitted the requisite documents prescribed under the extant TIM vs. TI Guidelines, including the list of raw materials and intermediates with source of supply, stepwise manufacturing process, chemical equations, flow sheet diagram from raw materials to the final technical product, effluent treatment method, specifications, method of analysis, impurity profile and supporting analytical data.

The Committee further noted that chemical equivalence had already been established with the registered source, M/s Godrej Agrovet Limited, and that the chemical composition, specifications and impurity limits submitted by the applicant were identical to those of the registered source.

The Committee also noted that an in-process sample drawn during inspection by officers of the Directorate had been tested by the Central Insecticides Laboratory (CIL) and found to conform to the submitted specifications. The CIL analysis did not reveal any unidentified impurity or any additional impurity having any toxicological concern. The reported impurity profile was within the prescribed limits and no toxicologically significant impurity arising from the disclosed manufacturing process was detected.

The Committee further deliberated upon the concerns raised before the Hon'ble Revisional Authority regarding the manufacturing process and the possible formation of toxicologically significant impurities. After examining the chemistry dossier, impurity profile, CIL analytical report and other material available on record, the Committee observed that no chemistry-related deficiency or safety concern has been established. The available data do not indicate the formation or presence of any additional toxicologically significant impurity under the disclosed manufacturing process.

The RC also noted that the petitioner's contention regarding the use of chloroform during the manufacturing process, including the alleged

|             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|             | <p>possibility of the formation of Methoxy Isocyanide and it's derivatives or any other additional impurities arising therefrom, is not revealed from the technical dossier or the reports available on record. The Committee observed that no such concerns are reflected in the technical documentation or analytical reports submitted by the applicant or generated by the Central Insecticides Laboratory. Accordingly, the RC found no merit or substance in the averments made by the petitioner in this regard.</p> <p>Accordingly, the Registration Committee, after thorough re-examination of the matter in compliance with the Order dated 10.08.2026 of the Hon'ble Revisional Authority and considering the available material on records, found no reason to interfere with its earlier decision taken in the 471<sup>st</sup> RC Meeting under Agenda Item No. 6.59, to grant registration for the indigenous manufacture of Fluxametamide Technical 93.5% Min. under Section 9(3) of the Insecticides Act, 1968, in the TIM vs. TI category, to M/s Best Crop Science Pvt. Ltd.</p> <p>The Committee, therefore, decided to uphold its earlier decision for grant of registration for Technical Indigenous manufacture of Fluxametamide Technical 93.50 % w/w Min. under section 9(3) TIM vs TI, with a provisional shelf life of two years. The applicant has to submit the real time shelf-life data as per existing guideline of RC within two and half years of submission of application for granting the registration, failing which Registration Certificate shall be deemed cancelled. A condition shall be incorporated in the CR of the applicant. It was further decided that the formulation files containing Fluxametamide in solo or combination pending as on date shall be put up to RC in next meeting of RC.</p> <p>RC directs the Secretary, CIB&amp;RC to communicate this decision to the Hon'ble Revisional Authority and the respective parties.</p> |

| <b>10.4</b> | <b>Consideration of the request regarding adoption of US EPA OPPTS 830.6317 as a test guideline for GLP shelf-life/storage stability studies and conduct of the study at three agroclimatic locations through a single GLP laboratory for registration of Technical Grade Pesticide under Section 9(3) - Technical Import (New Source).</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|             | The Registration Committee considered the request regarding adoption of US EPA OPPTS 830.6317 – Storage Stability for conducting GLP shelf-life/storage stability studies of Technical Grade Pesticides under Section 9(3) – Technical Import (New Source). The agenda was merged with agenda item No. 10.5.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>10.5</b> | <b>Finalization/Issuance of Guidelines for Registration of Twin Pack/Multi Pack of Already Registered Pesticides</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|             | <p>The agenda item No. 10.4 was also merged with this agenda. The Registration Committee considered the representation dated 12.08.2026 received from Hindustan Pesticides Manufacturers Association (HPMA) regarding finalization of guidelines for Twin Pack/Multi Pack Registration of already registered pesticides. The Committee also noted the decision taken in its 460<sup>th</sup> Meeting under Agenda Item No. 10.6 and the subsequent Open House Meeting held for detailed deliberation with stakeholders. The RC directed the Secretary CIB&amp;RC to constitute an inhouse Expert Group under his chairmanship to study the issue and present the findings/guidelines, if any in next RC meeting.</p> <p>The RC was of the opinion that the Expert Group may obtain comments/interact with the stake holders on the issue to obtain the feedback for pragmatic solution or evolution of guidelines. The TOR of the Expert Group shall be as under:</p> <ol style="list-style-type: none"> <li>1. Conducting of GLP shelf-life/storage stability studies of Technical/Formulation in consonance of US EPA OPPTS 830.6317 as a test guideline.</li> <li>2. Framing of Guidelines on multipack of combination products containing Insecticides/Herbicides/Fungicides (Ex. Insecticides + Insecticides/ Fungicide + Fungicide/Herbicide + Herbicides OR Insecticides + Fungicide where the A.I. shall not be more than 3 in any combination).</li> </ol> |
| <b>10.6</b> | <b>Consideration of applications for enhancement of shelf-life in the Certificate of Registration issued under Section 9(4) of the Insecticides Act, 1968.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|             | RC deliberated the agenda and approved the change in toxicity triangle as per the <b>Annexure-10.6.1.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|              | <p>RC deliberated the agenda and observed the difficulties faced by the applicants and problems surfaced due to non-existence of certain documents. The RC deliberated the issue in details and observed that the certain countries don't issue the CR with complete Chemical Composition and follows Confidential Business Information module.</p> <p>Therefore, the RC decided that the Exporter of the product from exporting country has to submit the detailed Chemical Composition (CC) on their letter head declaring that this is the registered CC in favor of Exporter and shall not differ from the given CC in any circumstances. The CR granted in the importing Country and registered source shall stand cancelled without any notice, if any deviation is found. The above said documents shall be apostilled along with an undertaking on the judicial stamp paper by the applicant.</p> <p>The RC further directed the Secretary (CIB&amp;RC) to get replaced the existing requirement of the 470<sup>th</sup> RC for TI (New source) guidelines with the above said amended requirement for uniform implementation and awareness of the stakeholders.</p> |

|      | <p>reference to the decision of the 473<sup>rd</sup> RC Meeting vide Agenda Item No. 6.7. The applicant submitted that the studies were initiated on 23.12.2019 and completed on 22.06.2022 under the data requirements prevailing at that time and claimed that mutagenicity data were not required where chemical equivalence with the earlier Section 9(3) registered technical was established. The applicant further submitted that the data requirements were subsequently revised pursuant to the 442<sup>nd</sup> RC Meeting held on 18.11.2022, i.e. after completion of the studies. The applicant also relied upon the decision of the 424<sup>th</sup> RC Meeting vide Agenda Item No. 10.26, contending that the RC had considered mutagenicity data as not required where chemical equivalence had been established.</p> <p>The Committee, after deliberation, observed that the present application was submitted on 21.02.2023, subsequent to the 442<sup>nd</sup> RC Meeting dated 18.11.2022, wherein the applicable toxicological data requirements included submission of mutagenicity data. The Committee further observed that the decision of the 424<sup>th</sup> RC Meeting pertained to Section 9(4) TIM applications and were not applicable to the present Section 9(3) TIM application. Further, evidence establishing chemical equivalence with the earlier Section 9(3) registered technical has not been furnished.</p> <p>The Committee, after deliberation, observed that, as per the “<i>Guidance Document on Toxicology for Registration of Chemical Pesticides</i>”, adopted in the 377<sup>th</sup> RC meeting, read with the relevant data requirements approved in the 381<sup>st</sup>, 440<sup>th</sup>, 442<sup>nd</sup> and 449<sup>th</sup> RC meetings, the prescribed mutagenicity data are mandatory requirement for toxicological evaluation and characterization of the genotoxic potential of the technical grade active ingredient. In the absence of such data, the genotoxic hazard profile cannot be adequately characterized for a scientifically sound safety assessment.</p> <p>Accordingly, the Committee did not find sufficient justification for waiver of the prescribed mutagenicity data and decided that the applicant shall submit the complete mutagenicity data package as per the applicable guidelines for further scientific evaluation and consideration of the application.</p> |
| 11.2 | <p><b>Representation against online rejection for registration of Carbosulfan Technical 92.00% w/w min. and Epoxiconazole Technical 97.00% w/w min. under Section 9(3) TI (New Source) – Discipline: Toxicity.</b></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

|             | RC deliberated the representation given by the applicant and it was decided that the plea of the applicant is not acceptable. Hence, data exemption cannot be granted to the applicant.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>11.3</b> | <b>Follow up action on the decision of The RC taken in its 470<sup>th</sup> meeting at agenda item no. 10.12 with respect to the writ petition no. 29263/2024 at Hon'ble High Court of Punjab and Haryana at Chandigarh pertaining to N-Nitroso Pendimethalin.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|             | The RC was apprised that the above matter could not be taken up for hearing since previous few dates and the matter is now listed for hearing on 24.09.2026. It was also informed to the RC that the affidavit has been filed in the matter as informed by our Senior Union Counsel. RC observes and recalls its decision taken in its 467 <sup>th</sup> Meeting and 470 <sup>th</sup> Meeting at agenda item no. 3.3 and 10.12 respectively and notes that the issues are related to the excessive presence of N-Nitroso Pendimethalin which is a carcinogenic impurity and is directly related to the Public Health. Looking to the importance and sensitivity of the matter RC decided that a D.O. Letter may be written by the Charman RC to the Learned Additional Solicitor General of India (ASGI) Hon'ble High Court of Punjab and Haryana at Chandigarh to kindly appear in the above matter and effectively place the submission of the Union of India/RC as the matter relates to the larger public health issue. |

|  |  |  | <p>IS:16154:2014 which shall be put into tri-laminated pouch conforming to IS:13193-2000, IS:16154:2014 and IS: 6604-1991 as a secondary packing. The tri-laminated pouches shall be further packed in mono carton as a tertiary packing conforming to IS:16985:2018. Tertiary packs shall be further packed into 5ply CFB box of capacity 5 kg as a transport packing conforming to IS:2771(I):2022;</p> <p>Endorsement for additional packing for primary packing in 250 g and 500 g capacity of HDPE container in registration certificate of Emamectin Benzoate 5% SG. Primary pack of capacity 250 g and 500g shall be induction sealed by appropriate induction sealing wad, cap should be tightly screwed to the bottle with optimum torque so that the liner gets compressed against the bottle lip surface creating enough pressure to enable the liner to fuse with the bottle lip-providing good sealing during the sealing process. Proposed HDPE Bottle height for 250g &amp; 500g</p> |  |
