### **REVISED PUBLIC NOTICE**

#### **Subject: Use of Pesticides as per Label requirement regarding water pH – reg.**

It is brought to the notice of General Public and Stake Holders that a Public Notice was issued vide File No. 06-04/2023-CIR-I (E-130285) dated 22.12.2025 on the above subject informing the decision of the Registration Committee (RC) taken in its 458th meeting. The date of 458th meeting inadvertently mentioned as held on 14.08.2025 & 23.08.2025 whereas the 458th meeting was held on 14.08.2024 & 23.08.2024. The same stand corrected. It is therefore once again brought to the knowledge of all stake holders that RC in its 458th meeting vide Agenda Item No. 10.29 has considered the subjected agenda and decided as under:

"RC deliberated the agenda and decided that in view of the comments from ICAR and further examination in the secretariat of CIB&RC, if any pesticide is highly sensitive to acidic or alkaline pH, specific conditions should be mentioned while considering for registration. For such pesticides which are highly sensitive to acidic or alkaline pH, specific instructions may be mentioned by the Bio-efficacy experts on the pesticide label/leaflet to sensitize the farmers/end users for the use of water with optimal pH as the case may be."

In view of the above, this Public Notice is hereby issued for general information and awareness of all concerned stake holders. All applicants/registrants are, therefore, advised to take note of the above decision and ensure compliance, wherever applicable, while submitting applications for registration and finalization of labels/leaflets.

This issues with the approval of Secretary, CIB&RC.
